

**AGENDA
BENBROOK CITY COUNCIL
THURSDAY, FEBRUARY 4, 2016
911 WINSCOTT ROAD, BENBROOK, TEXAS
PRE-COUNCIL WORKSESSION 7:00 P.M.
CENTRAL CONFERENCE ROOM**

1. Review and discuss agenda items for regular meeting

**REGULAR MEETING 7:30 P.M.
COUNCIL CHAMBERS
ALL AGENDA ITEMS ARE SUBJECT TO FINAL ACTION**

I. CALL TO ORDER

II. INVOCATION/PLEDGE OF ALLEGIANCE

Invocation To Be Given By Pastor Gary Oliver Of Tabernacle Of Praise

III. MINUTES

1. Approve Minutes Of The Regular Meeting Held January 21, 2016

Documents: [CC MINUTES-01-21-16.PDF](#)

IV. PRESENTATION BY MAYOR AND MEMBERS OF COUNCIL

CC-20161-01 Receive Resignation From Marci Mercado, ZBA/Appeals Board And Determine Method To Fill Vacancy

Documents: [CC-2016-01 ZBA VACANCY ALT D.PDF](#), [CC-2016-01 MARCI MERCADO RESIGNATION.PDF](#)

V. PRESENTATION BY PLANNING AND ZONING COMMISSION

PZ-2016-02 Adopt Update Of Section 17, Capital Improvement Program Of The Comprehensive Plan (Public Hearing)

Documents: [PZ-2016-02 UPDATE SECTION 17 COMP PLAN.PDF](#), [PZ-2016-02 SECTION 17 CIP.PDF](#)

VI. PRESENTATION BY TAX INCREMENT FINANCING BOARD

TIF-2016-01 Ratify First Amendment To The Developer Participation Agreement For Benbrook Towne Crossing Project And Approve Resolution Authorizing City Manager To Sign Agreement

Documents: [TIF-2016-01 RATIFY SUPPLEMENTAL AGREEMENT.PDF](#), [TIF-2016-01 AGREEMENT.PDF](#), [TIF-2016-01 RESOLUTION.PDF](#)

VII. REPORTS FROM CITY MANAGER

A. GENERAL

G-2229 Accept Hotel/Motel Tax Report For Quarter Ending December 31, 2015

Documents: [G-2229 HOTEL MOTEL TAX REPORT DECEMBER 2015.PDF](#), [G-2229 HMOT CHART.PDF](#)

G-2230 Adopt Resolution Authorizing Texas Coalition For Affordable Power (TCAP) To Procure Electricity For 2018-2022

Documents: [G-2230 AUTHORIZE TCAP PROCURE ELECTRICITY.PDF](#), [G-2230 TCAP ATTACHMENT ONE.PDF](#), [G-2230 TCAP RESOLUTION.PDF](#)

VIII. INFORMAL CITIZEN COMMENTS

State Law Prohibits Any Deliberation Of Or Decisions Regarding Items Presented In Informal Citizen Comments. City Council May Only Make A Statement Of Specific Factual Information Given In Response To The Inquiry; Recite An Existing Policy; Or Request Staff Place The Item On An Agenda For A Subsequent Meeting. The Exception To Informal Comments Is That Once An Election Date Has Been Set By City Council Comments Relative To Elections Will Not Be Broadcast On The City's Cable Channel. However, A Copy Of The Tape Containing Citizens' Comments Will Be Available At City Hall For Review Or Purchase By Interested Citizens.

IX. COUNCIL MEMBER AND STAFF COMMENTS

Announcements From City Councilmembers And City Staff May Be Made For Items To Include: Expression Of Thanks; Congratulations; Condolence; Recognition Of Public Officials, Employees Or Citizens; Information Regarding Holiday Schedules; Reminders Of Community Events Or Announcements Involving An Imminent Threat To The Public Health And Safety Of The Municipality That Has Arisen After The Posing Of The Agenda. No Discussion Or Formal Action May Be Taken On These Items At This Meeting.

X. ADJOURNMENT

WORKSESSION

1. Recap of 2015 and discuss 2016 City Council goals (Renee Franklin)
2. Discuss Fort Worth Independent School District Athletic Facilities

**MINUTES
OF THE
MEETING OF THE
BENBROOK CITY COUNCIL
THURSDAY, JANUARY 21, 2016**

The regular meeting of the Benbrook City Council was held on Thursday January 21, 2016 at 7:30 p. m. in the Council Chambers at 911 Winscott Road with the following Council members present:

Jerry Dittrich
Renee Franklin
Larry Marshall
Rickie Allison
Jim Wilson
Mark Washburn
Ron Sauma

Also Present:

Andy Wayman, City Manager
Dave Gattis, Deputy City Manager
Joanna King, City Secretary
Sherri Newhouse, Finance Director
Nicole Belford, Management Analyst
Johnna Matthews, Planner

Others Present:

Ed Gallagher, Planning Director
Denise Huneycutt, Benbrook News
Bill Smith
Ember Bailey
Mr. and Mrs. Jeff Bailey
Ethan Remtigme, Boy Scout Troop 11
Mike and Robin Remtigme

I. CALL TO ORDER

Meeting called to order at 7:30 p. m. by Mayor Dittrich.

II. INVOCATION/PLEDGE OF ALLEGIANCE

The audience observed a moment of silence in remembrance of Former Mayor Robert Clark.

Invocation given by Pastor Todd Pylant of First Baptist Church of Benbrook.

The Pledge of Allegiance was recited.

III. MINUTES

1. Minutes of the Regular Meeting held January 7, 2016

Motion by Dr. Marshall, seconded by Mr. Washburn to approve the minutes of the regular meeting held January 7, 2016.

Vote on the Motion:

Ayes: Ms. Franklin, Dr. Marshall, Mr. Allison, Mayor Dittrich, Mr. Wilson, Mr. Washburn, Mr. Sauma

Noes: None

Motion carries unanimously.

IV. INTRODUCTION OF NEW EMPLOYEE

1. Introduction of new City Planner – Johnna Matthews

Dave Gattis introduced Johnna Matthews, City Planner to City Council.

V. CITIZEN PRESENTATION

1. Ember Bailey – Request Ordinance allowing pigs within City Limits

Ember Bailey requested City Council to consider an ordinance allowing the keeping of pigs within the City limits. Ms. Bailey stated she has found a potbellied pig that she would like to keep in her back yard.

Mayor Dittrich thanked Ms. Bailey for her presentation and informed her that the City does allow the keeping of pigs along as the citizen has obtained the proper permit.

VI. PRESENTATION BY PLANNING AND ZONING COMMISSION

PZ-2016-01 Adopt Ordinance amending Chapters 17.08-Definitions; 17.20 – Districts, District Boundaries and District Uses; 17.24-“CF” Community Facilities; 17.28-“SD”Suburban District; 17.32-“RE” Residential Estate District; 17.36-“A” One Family District; 17.40 “B” One Family District; 17.44- “BR” One Family Reduced District; 17.48 ”CR” Multiple Family Restricted District; 17.52 –“C” Multiple Family District; 17.54-“D” Multiple Family District; 17.56-“E” Commercial District; 17.72-“MH” Manufactured Home District; 17.84-Supplementary District Regulation; 17.88-Parking and Vehicular Circulation Regulations; 17.96-Fence Regulations; 17.98-Landscape and Buffer Requirements of the Benbrook Municipal Code (Public Hearing)

Mr. Gattis gave the following report: Each year, the Staff reviews the City’s development ordinances for potential changes or amendments.

The first proposed amendment is to the Architectural Design requirements to replace “excluding” with “including” to read as follows:

Architectural design requirements: Principal buildings shall include the area for doors and windows in the calculation of masonry coverage for external materials applying to residential and commercial districts. The front, sign and rear walls shall have minimum masonry coverage of eighty percent (80%) of total wall area (including the area for actual doors or windows) in accordance with the definition of Masonry Construction.

The second proposed amendment is in regard to Masonry Construction. There has been some misinterpretation regarding the applicable masonry wall and fence requirement for screening. Changing terminology for consistency in all districts regarding masonry wall and/or masonry fence.

With the recent city limit adjustments with Fort Worth, Benbrook now has Extra-Territorial Jurisdiction (ETJ). The third proposed amendment is to add the definition of ETJ to definitions: Extra-Territorial Jurisdiction (ETJ) – the area defined by the Texas Local Government Code, Chapter 42, as applied to the City of from Subdivision Ordinance. That property which lies within the Jurisdiction of the City of Benbrook for enforcing subdivision plat regulations.

The final proposed amendment is to add the definition of Day Care Facility to definitions to replace Day Care Home, Family and change Group Home definition to reference Day Care Facility.

The Planning and Zoning Commission considered the amendments at their December 10, 2015 meeting and unanimously recommended that City Council adopt the ordinance amending the Zoning Regulations.

Mayor Dittrich opened the public hearing at 7:47 p.m. No one spoke to the item. Mayor Dittrich closed the public hearing at 7:48 p.m.

Motion by Dr. Marshall, seconded by Mr. Allison to adopt Ordinance No. 1393 amending the Zoning Regulations regarding: architectural design requirements regarding calculation of masonry coverage; clarifying the requirements for masonry walls and masonry fences; adding a definition of extra-territorial jurisdiction; and, adding definitions of child care facilities and group homes to conform to State law.

Vote on the Motion:

Ayes: Ms. Franklin, Dr. Marshall, Mr. Allison, Mayor Dittrich, Mr. Wilson, Mr. Washburn, Mr. Sauma

Noes: None

Motion carries unanimously.

Ordinance No. 1393 being **“AN ORDINANCE AMENDING TITLE 17 - ZONING OF THE BENBROOK MUNICIPAL CODE (1985), AS AMENDED, BY**

AMENDING CHAPTER 17.08 — DEFINITIONS; CHAPTER 17.20 DISTRICTS, DISTRICT BOUNDARIES AND DISTRICT USES; CHAPTER 17.24 – “CF” COMMUNITY FACILITIES; CHAPTER 17.28 – “SD” SUBURBAN DISTRICT; CHAPTER 17.32 – “RE” RESIDENTIAL ESTATE DISTRICT; CHAPTER 17.36 – “A” ONE FAMILY DISTRICT; CHAPTER 17.40 – “B” ONE FAMILY DISTRICT; CHAPTER 17.44 – “BR” ONE FAMILY REDUCED DISTRICT; CHAPTER 17.48 – “CR” MULTIPLE FAMILY RESTRICTED DISTRICT; CHAPTER 17.52 – “C” MULTIPLE FAMILY DISTRICT; CHAPTER 17.54 – “D” MULTIPLE FAMILY DISTRICT; CHAPTER 17.56 – “E” COMMERCIAL DISTRICT; CHAPTER 17.72 – “MH” MANUFACTURED HOME DISTRICT; CHAPTER 17.74 “MU” MIXED USE DISTRICT; CHAPTER 17.75 “FBC” FORM-BASED CODE DISTRICT; CHAPTER 17.84 – SUPPLEMENTARY DISTRICT REGULATION; CHAPTER 17.88 - PARKING AND VEHICULAR CIRCULATION REGULATIONS; CHAPTER 17.96 – FENCE REGULATIONS; AND CHAPTER 17.98 – LANDSCAPE AND BUFFER REQUIREMENTS – ZONING OF THE BENBROOK MUNICIPAL CODE.”

**SECTION 28
PENALTY CLAUSE**

Any person, firm or corporation who violates, disobeys, omits, neglects or refuses to comply with or who resists the enforcement of any of the provisions of this Ordinance shall be fined not more than Two Thousand Dollars (\$2,000.00) for all violations involving zoning, fire safety or public health and sanitation, including dumping of refuse, and shall be fined not more than Five Hundred Dollars (\$500.00) for all other violations of this Ordinance. Each day that a violation is permitted to exist shall constitute a separate offense.

**SECTION 35
EFFECTIVE DATE**

This ordinance shall be in full force and effect from and after its passage and publication as required by law.

VII. REPORTS FROM CITY MANAGER

A. GENERAL

G-2225 Accept finance report for period ending December 31, 2015

Sherri Newhouse gave the following report: General Fund revenues for the month of December were \$4,547,501. Property tax collections were \$4,063,933. Sales tax collected in November 2015 but received by the City and recognized as revenue in December 2015 was \$177,560 for the month. General Fund revenues collected through the end of December were \$5,716,653 or 34.31% of the budget.

General Fund expenditures for the month of December were \$1,777,232. Expenditures through the end of December were \$3,996,081 or 22.84% of the adopted budget.

For the 2015-16 fiscal year-to-date, total General Fund revenues of \$5,716,653 exceeded General Fund expenditures of \$3,996,081 by \$1,720,572.

Debt Service revenues collected for the month of December 2015 totaled \$160,630; all revenue was from property taxes. There were no Debt Service expenditures for December. Total revenues for 2015-16 in the amount of \$186,110 exceeded total expenditures by \$186,110.

EDC revenues as of December 31, 2015 were \$103,440. Sales tax revenue received by the EDC for December 2015 was \$88,667. Interest earnings for the year were \$14,773. EDC expenditures for December were \$61,516. Expenditures for the year in the amount of \$170,437 exceeded total revenues of \$103,440 by \$66,997.

Total revenues received through December 31, 2015 for the Capital Projects Fund were \$126,514. Total expenditures for the Capital Projects Fund in December 2015 were \$127,750 for the Springbranch Drainage Project. Total expenditures of \$127,750 exceeded total revenues of \$126,514 by \$1,236.

On December 31, 2015, the City had \$23,242,735 invested at varying interest rates; the EDC had \$6,031,666 available.

Motion by Mr. Wilson, seconded by Ms. Franklin to accept the finance report for the period ending December 31, 2015.

Vote on the Motion:

Ayes: Ms. Franklin, Dr. Marshall, Mr. Allison, Mayor Dittrich, Mr. Wilson, Mr. Washburn, Mr. Sauma

Noes: None

Motion carries unanimously.

G-2226 Adopt Ordinance amending Title 8 of the Benbrook Municipal Code by amending Chapter 8.08.010 – Weeds, Rubbish, Stagnant Water, etc. by adding Open Storage and Equipment

Nichole Belford gave the following report: Recently, the Code Compliance Department conducted an evaluation of City Ordinance related to storage of items. Clarifying the following issues will assist enforcement:

1. Open storage of items customarily stored indoors.
2. Storage of farm and/or construction equipment in residential districts.

Current regulations are subject to broad interpretation. Staff proposes an amendment to junk and rubbish definition to clarify open storage to read:

A4. Open storage is defined as a placement of an item that is not customarily used or stored outside, or that is made of material that is not weather resistant, in an unenclosed outdoor area for more than 24 continuous hours.

Open storage is prohibited in the front yard, on a front porch, under a carport, or any other unenclosed area. Items stored in this manner are considered a public nuisance if they are visible from a public place or public right-of-way.

Staff became aware of a large backhoe stored in the driveway of a residential property. No ordinance currently exists to regulate this type of equipment storage.

Staff proposes an amendment to read:

A5. It is an offense for the owner, occupant, or person in charge of a residential property to: park, stand, or store any farm equipment or light or heavy construction equipment in any residentially zoned area within the city for more than seven consecutive days in a 180-day period, unless the equipment is being used in conjunction with an active construction project and on the property where a building permit has been issued, and construction is in progress.

Motion by Mr. Sauma, seconded by Ms. Franklin to adopt Ordinance No. 1394 amending Title 8 of the Benbrook Municipal Code by amending Chapter 8.08.010, Section A, by adding: Number 4: Open Storage and Number 5: Equipment Storage.

Vote on the Motion:

Ayes: Ms. Franklin, Dr. Marshall, Mr. Allison, Mayor Dittrich, Mr. Wilson, Mr. Washburn, Mr. Sauma

Noes: None

Motion carries unanimously.

Ordinance No. 1394 being “AN ORDINANCE OF THE CITY OF BENBROOK, TEXAS AMENDING TITLE 8 OF THE BENBROOK MUNICIPAL CODE BY AMENDING CHAPTER 8.08 OF THE BENBROOK MUNICIPAL CODE, BY AMENDING SECTION 8.08.010, SECTION A, BY ADDING NUMBER 4 – OPEN STORAGE AND BY ADDING NUMBER 5 – EQUIPMENT STORAGE; AND PROVIDING THAT THIS ORDINANCE SHALL BE CUMULATIVE OF ALL ORDINANCES; PROVIDING A SEVERABILITY CLAUSE; PROVIDING FOR A PENALTY FOR VIOLATIONS HEREOF; PROVIDING A SAVINGS CLAUSE; PROVIDING FOR PUBLICATION IN PAMPHLET FORM; PROVIDING FOR ENGROSSMENT AND ENROLLMENT; PROVIDING FOR PUBLICATION IN THE OFFICIAL NEWSPAPER; AND PROVIDING AN EFFECTIVE DATE.”

SECTION 4

Any person, firm, or corporation who violates, disobeys, omits, neglects, or refuses to comply with or who resists the enforcement of any provisions of this ordinance shall be fined not more than Two Thousand Dollars (\$2,000.00) for all violations of this ordinance. Each day that a violation is permitted to exist shall constitute a separate offense.

SECTION 7

This ordinance shall be in full force and effect from and after passage and publication as provided by law, and it is so ordained.

G-2227 Ratify appointment to Civil Service Commission

Joanna King gave the following report: State law requires the City Manager to make appointments to the City's Police Civil Service Commission with those appointments confirmed by City Council.

The Commission consists of three members serving in staggered terms. Presently, two positions are vacant due to term limits and one position is vacant due to the member moving from the City.

The City Manager has made the following appointments:

Keith Bailey to serve a term ending January 20, 2019
Ron Dilulio to serve a term ending January 20, 2018
Steve Adams to serve a term ending January 20, 2017

Motion by Mr. Washburn, seconded by Mr. Allison to confirm the appointments to the Civil Service Commission.

Vote on the Motion:

Ayes: Ms. Franklin, Dr. Marshall, Mr. Allison, Mayor Dittrich, Mr. Wilson, Mr. Washburn, Mr. Sauma

Noes: None

Motion carries unanimously.

G-2228 Approve Sanitary Control Easement to Benbrook Water Authority, 1203 Wade Hampton St., Lot 2, Block 13 Benbrook Lakeside Addition

This item removed from agenda by Benbrook Water Authority.

VII. INFORMAL CITIZEN COMMENTS

VIII. COUNCIL MEMBER AND STAFF COMMENTS

IX. ADJOURNMENT

Meeting adjourned at 8:01 p.m. followed by worksession to hear presentation by private investment group contemplating assumption of Whitestone Golf Course lease.

APPROVED:

Jerry B. Dittrich, Mayor

ATTEST:

Joanna King, City Secretary

MEMO TO: Mayor Dittrich and Members of Benbrook City Council

FROM: Joanna King, City Secretary

SUBJECT: Vacancy on Benbrook Zoning Board of Adjustment/Board of Appeals

DATE: February 4, 2016

On January 22, 2016, the City Secretary received a letter of resignation from Marci Mercado, Alternate D on the Benbrook Zoning Board of Adjustment/Board of Appeals.

Ms. Mercado was appointed to Alternate D in December 2014 for a term to expire on December 30, 2016. The ZBA/Board of Appeals consists of five (5) members and four (4) alternates.

City Council recently made the appointments to the various Boards and Commission for terms ending in 2015. The Alternate D position was not up for reappointment. The next process for advertising and receiving applications for the various Boards and Commission will not begin until September 2016.

Staff recommends City Council delay the appointment to Alternate D until applications have been received from all interested citizens during the normal application process.

CITY COUNCIL COMMUNICATION

DATE: 02/04/16	REFERENCE NUMBER: PZ-2016-02	SUBJECT: Adopt update of Section 17, Capital Improvement Program of the Comprehensive Plan	PAGE: 1 of 3
-------------------	---------------------------------	---	-----------------

CP-16-01 STAFF REPORT
TO PLANNING AND ZONING COMMISSION
JANUARY 14, 2016

The Capital Improvements Plan is a forecast and schedule of public improvements for the next five years and beyond. The City Charter requires that the Capital Improvements Plan (CIP) be updated every year. The CIP was last updated in January 2015.

The changes included in this year's plan include:

1. Updates to Tables:
 - Table 17.2, Financial Status of Active Projects
 - Table 17.3, Updated Bonding Capacity Analysis
 - Table 17.4, Scheduled Community Facility Projects
 - Table 17.10, Scheduled Street Projects
 - Table 17.11, Scheduled Drainage Projects
 - Table 17.12, Program Summary

2. Updated Capital Improvement project information (Section 17.5)

3. Updated most tables to 2015 dollars

Community Facilities

In the 2014/15 fiscal year two maintenance projects and one capital project were completed relating the Hike and Bike Trails. The first, the asphalt trails along Winscott Road and the walking track in Dutch Branch Park were fogged sealed as part of the preventative maintenance program. The fog seal helps to seal the asphalt to minimize water infiltration into the asphalt. The Hike and Bike trails were also restriped. The second project was to install three park benches along the Hike and Bike Trail along Winscott Road and two park benches around the walking track in Dutch Branch Park. The third project was replacing the wooden light poles at the soccer field and on Field #8 with metal ones. This completed the multi-year project to replace all the wooden light poles in Dutch Branch Park. No new community facility projects are proposed for this current fiscal year.

-------------------	------------------------------------	---	-----------------

Streets and Thoroughfares

In 2014/15, the alley east of Usher Streets was constructed. Because the majority of adjacent properties were commercial, it did not qualify for CDBG funds. The alley was constructed from Usher Street connecting to the parking lots of the businesses fronting on Benbrook Boulevard.

In addition, the extensions of Benbrook Parkway and Winbrook Drive were completed using funds from the Economic Development Corporation since this project is expected to attract new commercial and industrial development.

Timberline Drive between Timberline Court and Edgewood Trail was reconstructed by stabilizing the subbase, and constructing new concrete curb and gutter and asphalt paving. The Benbrook Water Authority also replaced the water and sanitary sewer mains and services along this portion of Timberline Drive.

Drainage Facilities

The update to the CIP also includes the completion of the Springbranch Drainage project and the continuation design and construction of the other five drainage projects using funds from the storm water utility fee. The current projects are scheduled to be completed over the next three to five years and include the Sundown Drive storm drain project, Van Deman Drive storm drain project, Chapin Road Cross Culvert Replacement project, Plantation West Creek repair project, Plantation East Creek repair project and Timberline erosion project.

RECOMMENDATION

It is recommended that the Planning and Zoning Commission recommend that the City Council adopt the revised Section 17 – Capital Improvements – as part of the Comprehensive Plan.

UNAPPROVED MINUTES
PLANNING ZONING COMMISSION
JANUARY 14, 2016

CP-16-01 Consider Update of Section 17, Capital Improvements Program,
of the Comprehensive Plan - PUBLIC HEARING

The Chair introduced the item and asked for a report from staff.

Bennett Howell said the updates and the revisions to the Comprehensive Plan are presented each year to the Planning and Zoning Commission and the City Council for review and approval. They include financial information, project costs in 2015 dollars, and update to the Appendix Tables that include street inventory.

Mr. Howell said the following drainage projects have been scheduled for:

- ❖ Fiscal Year: 2015 – 2016

DATE: 02/04/16	REFERENCE NUMBER: PZ-2016-02	SUBJECT: Adopt update of Section 17, Capital Improvement Program of the Comprehensive Plan	PAGE: 3 of 3
-------------------	------------------------------------	---	-----------------

- Sundown Drive
- Plantation West Creek Erosion

❖ Fiscal Year: 2016 – 2017

- Chapin Road Cross Culvert and Channel
- Van Deman Drive

❖ Fiscal Year: 2017 – 2018

- Timberline Erosion

Under Streets and Thoroughfares, the extension of Benbrook Parkway and Winbrook Drive on the north side of Interstate-20 have been completed so that area is ready for development. Another project that was completed is the extension of the alley system between Usher Street and Benbrook Boulevard.

The drainage facilities for Plantation East Creek at Spring Branch were also completed in Fiscal Year 2015-2016.

Mr. Howell said the Benbrook Boulevard/US Highway 377 project is ongoing and the Phase I section, or middle section, should be finalized in January 2016. He said that Phases II and III should be starting in mid-February.

Staff recommends that the Planning and Zoning Commission recommend that the City Council adopt the revision of Section 17 – Capital Improvements as part of the Comprehensive Plan.

The Chair asked for any comments or questions from the Commission. There being none, the Chair opened the public hearing at 7:43 p.m. and asked if anyone wished to speak for or against the item. There being none, the Chair closed the public hearing at 7:44 p.m. and asked for any comments, questions, or a motion from the Commission.

Motion by Mr. Wallis that the Planning and Zoning Commission recommend that the City Council adopt the revision of Section 17 – Capital Improvements as part of the Comprehensive Plan. Second by Mr. Carver. The chair called the question.

Vote on the motion:

Ayes: Mr. Valverde, Mr. Casey, Mr. Ramsey, Mr. Dawson, Mr. Russell, Mr. Craver, Mr. Wallis, and Mr. Harris

Noes: None

Abstain: None

Motion carried: 8 – 0 – 0

CIP17. CAPITAL IMPROVEMENTS

17.1 INTRODUCTION

The Capital Improvements Program is an integral part of the Comprehensive Plan and is one of the most important mechanisms for implementing the Comprehensive Plan. Review of the Capital Improvements Program is also an annual requirement of the City's Charter (Section 6.02). Therefore, this element of the Comprehensive Plan also is designed to serve as a stand-alone document.

The capital facilities of the City, known as its infrastructure, are the physical improvements constructed by and for the public. Typical infrastructure improvements include community facilities such as public buildings and parks, streets and thoroughfares, and drainage improvements.

As discussed in Section 3 of the Comprehensive Plan, the population of Benbrook has grown rapidly. It is a challenge for the City to maintain service to this rapidly growing population without straining its financial resources. The adopted population projection for the City of Benbrook is presented in Table 17.1.

**Table 17.1
POPULATION PROJECTION
For the
City of Benbrook**

Year	Projected Population
2010	21,234
2011	21,270
2015	22,419
2020	31,770
2025	32,850
2030	35,328
2040	40,597

Changes during 2015:
Population estimates were revised in March 2015 using data from the North Central Texas Council of Governments and Texas Water

These projections are used in the design and evaluation of future projects. Facilities typically are designed to handle the expected service population at the end of the facility's economic life.

This Capital Improvements Program examines three planning horizons. First, it identifies the capital improvement projects that should be scheduled for funding during the current fiscal year. Secondly, it examines capital needs and proposed funding, by year, for the next five years. Finally, it examines future unfunded capital project needs beyond the next five years.

17.2 STATUS OF PREVIOUSLY APPROVED CAPITAL IMPROVEMENT PROGRAMS

Benbrook prepared its first Capital Improvements Program in 1969, in conjunction with preparation of its first Comprehensive Plan. The 1969 CIP program proposed total funding package of \$2,491,280 of street improvements and \$1,474,230 in drainage improvements. However, the bond authorization to implement this program failed to receive voter approval.

In 1978, a bond proposal was prepared for a \$1,130,000 Fire Station, \$4,520,000 in street improvements, \$2,425,000 in drainage improvements and a \$530,000 recreation/civic center building. Only the fire station and street improvements received voter approval.

In 1979, a \$3,025,000 drainage improvement proposal was submitted to the voters and was approved.

In 1981, a \$4,100,000 street and drainage package was proposed, but failed to receive voter approval.

In 1985, a package including a \$1,300,000 police station, \$2,200,000 in street improvements, and \$500,000 in drainage improvements was submitted to the voters for approval. All three issues were approved.

In January 1989, the voters turned down a proposed bond issue that included \$1,200,000 in street improvements, \$500,000 in drainage improvements and \$1,700,000 for a new library. In May 1992, the voters defeated a proposed one-half cent increase in the city sales tax to be used to construct and operate a library, but passed a similar measure in January 1999.

In September 1997, a package that included \$2,530,000 in street improvements, \$2,630,000 in drainage improvements, \$2,400,000 for a community recreation center, and \$475,000 for an aerial ladder fire truck was submitted to the voters for approval. All four issues were approved. An additional \$1,250,000 in certificates of obligation was issued to cover the increased cost of the community recreation center.

In February 2004, a package that included \$2,800,000 in street improvements, \$3,700,000 in drainage improvements, \$3,215,000 in park improvements, and \$285,000 to acquire land for a new fire station site was submitted to the voters for approval. The drainage and fire station propositions passed, but the street and park propositions failed.

In September 2007, the City authorized an additional \$1,035,000 in certificates of obligation to cover the costs of the Plantation East Creek project. The Council also adopted a Storm Water Utility fund which will be used to fund existing and future drainage debt, as well as provide approximately \$100,000 annually for small drainage projects.

In July 2009, the City Council appointed a 17-member Capital Improvements Advisory Committee to make recommendations of projects to be included in a future CIP and bond program. In March 2010, the Committee recommended a bond election for \$1,530,000 in new street bonds (for Clear Fork Bridge and Chapin Road reconstruction), \$1,727,000 in new parks improvement bonds (Dutch Branch Park and Whitestone (later called Rolling Hills) Park improvements), and \$3,066,750 in community facilities bonds (Fire Station remodeling and expansion, animal control shelter expansion, and purchase new fire truck). The City Council accepted the recommendations, but chose to defer holding a bond election until a future date. Two projects (Fire Station remodeling and expansion, Rolling Hills Park) were later funded using cash reserves.

17.2.1 Community Facilities

A summary of the projects proposed under the previously-approved bond packages is presented in Attachment 17-A in the Appendix along with their current status. Of the nine community facilities planned, eight were completed and one equipment purchase was canceled. In addition, the planned Mont Del/Ridglea Country Club Estates Fire Substation was built in 1983 as Fort Worth Fire Station No. 30 (4416 Southwest Boulevard), when only land purchase was originally planned. Benbrook received fire service from that station from 1983 to 2006, when the contract with Fort Worth was discontinued. An additional community facility (the Senior Citizens Activity Center) was constructed and expanded without bonds by using federal Community Development Block Grant funds; however, this facility was sold to the Benbrook Library District in 2000.

Two community facility projects were initiated in fiscal year 2011/12 – Rolling Hills Park (originally known as Whitestone Park) and the Central Fire Station renovation and addition. Both of these projects were funded with cash reserves. Rolling Hills Park was completed in Spring 2012. The expansion and addition to the Central Fire Station was completed in May 2013.

In the 2012/13 fiscal year, two extensions of the Winscott Road Hike and Bike Trail were completed. The first, located on the north side of Winscott Road, is from Benbrook Boulevard to Sproles Road. The second is located on the south side between Beach Road and the YMCA/Community Center parking lot. Another extension of the Winscott Road Hike and Bike Trail from the YMCA/Community Center to the ballfields in Dutch Branch Park was constructed during the past fiscal year. It was completed in May 2014. No new community facility projects are proposed for this fiscal year.

17.2.2 Streets and Thoroughfares

A total of 22 street projects were planned as part of the three bond programs that were passed. Of these, 16 were completed, three were canceled, and three were built using City forces. In addition to the projects planned, the City has also rehabilitated or reconstructed 13 additional streets under the bond program.

Change since 2015:
Street and drainage projects updated based on activity during 2015.

In 2011, the alleys connecting Park Center, Warden and Wade Hampton Streets were constructed using federal Community Development Block Grant (CDBG) funds. In 2013/14, the alley connecting Wade Hampton and Usher Streets was constructed using CDBG funds. In 2015, the final phase of the alley, located behind the commercial businesses between Usher Street and Benbrook Boulevard, was constructed. Because the majority of adjacent properties are commercial, it did not qualify for CDBG funds.

Changes in 2015
Table 17-2 and Attachment 17-A updated in the Appendix.

The reconstruction of Benbrook Boulevard (US 377) from IH-820 to Winscott/Lakeside Drive is proceeding as schedule. This project is a Texas Department of Transportation (TxDOT) project, with the City's local share using core value funds.

In addition, the extensions of Benbrook Parkway and Winbrook Drive was constructed using funds from the Economic Development Corporation since this project is expected to

attract new commercial and industrial development. The extension project was completed in July, 2015.

Timberline Drive between Edgewood Trail and Timberline Court was reconstructed. Benbrook Water Authority upgraded the existing water and sanitary sewer mains. Once the utility upgrades were completed, the City, the assistance of Tarrant County, stabilized the subbase. The curb, gutter and drive approach replacement was contracted out and then asphalt pavement was completed by Tarrant County.

17.2.3 Drainage Facilities

A total of 27 drainage projects have been completed as part of the four drainage improvement bond programs that passed.

The following improvements and repairs have been made in recent years using the storm water utility fund – Plantation West Creek improvements, Plantation East Creek improvements (Tara Channel), Briar Run drainage, and Edge Hill storm drain. The Bryant Street storm drain project was completed in September 2014. The current planned projects are scheduled to be completed over the next three to five years and will be funded through the Storm Water Utility Fund. The Sundown Drive storm drain project, Van Deman Drive storm drain project, Chapin Road Cross Culvert Replacement and Channel project, Plantation West Creek repair project, Plantation East Creek repair project and Timberline erosion project.

The following table, Table 17.2, summarizes the status of currently-funded projects.

<p><u>Changes during 2015:</u> Status information updated through September 2015. Added Timberline Drive Project to the list.</p>

**Table 17.2 STATUS OF SCHEDULED PROJECTS
(As of December 2015)**

	Project	Project Budget	Status	Funding Source
Community Facilities	None			
Street Improvements	Widening of Benbrook Blvd	City share = \$2,836,329	Under Construction	Core Value Fund
	Benbrook Parkway Winbrook Drive extension	\$ 3,256,900	Completed July 2015	EDC Funds
	Alley extension (Usher Street to rear of businesses fronting on Benbrook Blvd/U.S, Hwy 377)	\$ 119,408	Completed June 2015	\$ 13,500 contribution; \$ 105,908 General Fund
	Timberline Drive Project (Edgewood Trail to Timberline Ct)	\$148,000	Completed November 2015	General Fund
Drainage Facilities	Sundown Drive Storm Drain	\$375,000	Engineering	Storm Water Utility Fund
	Van Deman Drive Storm Drain	\$500,000	Engineering	Storm Water Utility Fund
	Chapin Road Cross Culvert Replacement and Channel	\$390,000	Engineering	Storm Water Utility Fund
	Plantation West Creek Repair	\$450,000	Engineering	Storm Water Utility Fund
	Plantation East Creek Repair	\$150,000	Construction	Storm Water Utility Fund
	Timberline Erosion Protection	\$700,000	Engineering	Storm Water Utility Fund

7.3 FINANCIAL ANALYSIS

There are several ways to finance capital projects. The City could adopt a "pay as you go" or capital replacement fund approach. Alternatively, the City could incur long-term debt in the form of general obligation bonds. Finally, the City can issue short-term debt instruments in the form of certificates of obligation. These are the three major methods of obtaining funds for capital projects and the City has used all three methods to some degree.

In addition to the major forms of funding, there are several other methods of financing projects on a complete or partial basis. Joint financing with other governmental bodies is being used for

Texas Department of Transportation projects and for border streets with Fort Worth. Special assessments are used to recover benefits provided to adjacent landowners by street paving when paving would enhance property values. Finally, state and federal grant programs may be used for special projects. The City has used, or is using, each of these forms of financing as well.

The City has issued \$23,962,259 in general obligation bonds since 1979, of which \$3,775,000 remains outstanding. The City incurred a 50-year debt obligation for \$197,686 in 1977 with the Corps of Engineers for park improvements at Dutch Branch Park, but the remaining balance was paid off early in 2010. In addition to the long-term debt incurred, the City sold an additional \$1 million in certificates of obligation to fund the Plantation East Creek Project, which was paid off in 1996, and sold \$1,250,000 in certificates for the community center and \$2,500,000 for the tax increment finance district, of which \$1,270,000 remains outstanding. An additional \$1,035,000 of certificates of obligation were sold in October 2007 to fund the Plantation East Creek drainage project, of which \$755,000 remains outstanding. The total annual debt service requirement for fiscal year 2014-2015 is \$969,075, which is approximately 5.8 percent of the total City budget.

In September 2007, the City implemented a new storm water utility fee to fund storm water projects. This fee assesses property owners on the basis of the amount of impervious area on their property, which equates to the amount of storm water that enters the City's system. The fee was set at \$0.00204/square foot, or \$6.50 for each single family house. The fee generates approximately \$968,000 annually, of which \$618,515 is used to pay existing debt related to drainage projects while the remainder is used to build new drainage projects.

Future funding capability for streets and community facilities is presented in Table 17.3. The projection of Total Budget was obtained from the City's Budget Director. Debt service includes debt required for past bond issues, as well as future bond issues assuming a 20-year bond with 3.5 percent interest rate. This projection assumes that the City will continue to use general obligation bonds for capital financing instead of establishing a capital replacement fund.

This projection uses an upper limit of 10 percent for the maximum debt service ratio. Principle 7.5.5 of the Comprehensive Plan's Goals, Objectives and Strategies has adopted a maximum of 20 percent, but over the past few years, the City Council has utilized an increasingly larger portion of the 20 percent increment for general fund uses and to reduce the ad valorem rate. The reduction to 10 percent also corresponds to the use of the storm water utility fee to fund debt associated with drainage projects. Using this analysis, the City could sell an additional \$10 million in bonds over the next five years and \$11 million over the following five years.

In lieu of continued use of general obligation bonds, the City Council could consider using a capital replacement, or pay-as-you-go, program to build a reserve fund for capital projects. Such a funding program can be established using a capital recovery factor based on amortization of existing facilities, or it

Changes since December 2015:

2023-24	-	263,486	20,991,234	9.9%
2024-25	1,000,000	262,847	22,305,293	9.3%

simply could be an allocation of that portion of the 10 percent share of the budget that is not used for debt service. Under this approach, total contributions to the fund would approach \$4,461,427 after five years, and add over \$973,545 annually in year 5.

17.4 INVENTORY OF EXISTING FACILITIES AND EVALUATION OF FUTURE NEEDS

17.4.1 Community Facilities

The Fire Sub-station was moved out to future years since the previous site was sold the land has to be purchased and building financed. The proposed schedule for these projects is presented in Table 17.4.

Changes in 2015:
 The Fire Sub-station was moved out to future years since the land has to be purchased and building financed. The Animal Shelter costs were updated.

**Table 17.4
 SCHEDULED COMMUNITY FACILITY PROJECTS**

Fiscal Year	Community Facility	Projected Cost (2015 \$)
2015-2016 (in progress)	None Designated	NA
2016-2020	Animal Shelter	\$550,000
	Fire Sub-Station (beyond 2020)	\$1,328,000

Table 17.5 on the following page includes an inventory of the City's existing buildings and park property. All of the current buildings have acceptable structural conditions. The City and the Benbrook Water Authority demolished the old City Hall/Fire Hall in September 2001, and sold the property as surplus to the Benbrook Economic Development Corporation in July 2002. The old post office that was part of this complex was demolished by city forces in 1990. The old metal Fire Hall was demolished in 2003. The Benbrook Community Center/YMCA was completed in March 2000, and completed an expansion in 2010. The Senior Citizens Activity Center was sold to the Benbrook Library District in January 2001. Park improvements were made to Timbercreek Park and Twilight Park in 2010 by adding pedestrian bridges and other improvements. Rolling Hills Park was completed in 2012. The Whitestone Fire Station Site was sold in 2014 and a new site needs to be located. Table 17.6 presents an inventory of City property, including City park land.

Table 17.5 Inventory of City Buildings

Changes in 2015:
No Changes.

Name	Location	Floor Area (S.F.)	Current Use	Year Built/ Remodeled	Type Construction	Expected Life
City Hall	911 Winscott Rd.	10,480	Municipal Offices and Meetings	1976/1987	Steel Frame/Brick	2011

Mont Del Park	14 Mont Del Drive	Block 9, Mont Del Estates	1.62	CF	Duck Pond
Dutch Branch Park	1800 Winscott Road	Corps of Engineers property (leased to the City)	278.00	CF	Athletic Fields, concession areas, Community Center/YMCA
Timbercreek Entry	Winscott-Timbercreek Road intersection	Lot 1-B, Block 1, Timber Creek Addition	1.60	C-PD	Open Space
Rolling Hills Park	6970 Rolling Hills Drive	Lot 1, Blk 1, Rolling Hills Park Addition	4.546	BR-PD	Playground Sand volleyball court ½ basketball court Jogging path
Team Ranch Park	8250 Benbrook Blvd (I-820 frontage road)	Portions of H.Covington A-257 & C.H. Borden A-243	33.1	BR	Open Space
Whitestone Park	11550 Benbrook Boulevard	Portion of T&NO RR A-1565	6.040	BR-PD	Open Space
Brookside Park	300 Sterling	Lot 1, block 7 Brookside at Benbrook Field	6.06	BR	Open Space

A number of other unfunded community facility projects are projected to be needed with the next 20 years. The 2009 CIP Committee recommended several new community facilities that have not yet been funded, including a new animal control building, a new pumper fire truck, a new quint fire truck, and improvements to Dutch Branch Park. These, as well as others, are included in Table 17.7. It is expected that some of these projects may be scheduled when funds become available if the City chooses to sell additional bonds during the next five years.

Changes in 2015:
 Added the Pumper Fire Truck and included the years the two fire trucks have to be replaced based on NFPA requirements.

**Table 17.7
 UNFUNDED COMMUNITY FACILITY PROJECTS**

Community Facility	Projected Cost (2015 \$)
New Animal Control facility	\$550,000
New Pumper Fire Truck in 2021	\$700,000
New Quint Fire Truck in 2023	\$1,100,000
Dutch Branch Park improvements (Phase 1)	\$420,000
Mont Del/North Benbrook Fire substation	\$2,205,000
Whitestone Ranch Fire Station construction and land	\$1,328,000
Maintenance and Service Center Improvements	\$1,470,000
Acquire Additional Parkland in North Benbrook	\$1,096,121
Dutch Branch Park improvements (Phase 2)	\$3,590,320
Mont Del Park Improvements	\$73,054
Timber Creek Park Improvements	\$292,320
Acquire linear park along Walnut Creek	\$2,046,083
Bike and Jogging Trail	\$1,525,808
Team Ranch Park improvements	\$1,096,122
Benbrook Marina relocation	\$7,596,225
Benbrook Community Center/YMCA expansion (Phase 3)	\$1,500,000

17.4.2 Streets and Thoroughfares

A complete inventory of streets within the City is included as Attachment 17-B in the Appendix. Benbrook has over 112 miles of paved streets within the City (excluding streets maintained by the Texas Department of Transportation) with an estimated replacement value of \$223 million (2015 \$). The inventory includes an assessment of pavement condition and an estimate of the life of each street. The evaluation of pavement condition is based on a 100-point pavement condition index developed by

the U.S. Army Corps of Engineers as part of their MicroPaver pavement management system initially implemented by the City in 2006. The City performed a comprehensive evaluation in late 2012 through early 2013 to update the indices. Work continues to update the tables in the Appendix with the updated indices. A qualitative scale based on the pavement condition index is shown in Table 17.8.

**Table 17.8
PAVEMENT CONDITION INDEX SCALE**

Pavement Condition Index Range	Qualitative Rating
0-10	Failed
11-25	Serious
26-40	Very Poor
41-55	Poor
56-70	Fair
71-85	Satisfactory
86-100	Good

The design life is based on the assumed average life for each type of street type and pavement as presented in Table 17.9. These values are averages and individual streets may deteriorate sooner or later than these figures; however, the figures indicate the expected life and help identify streets that may be in need of replacement within a given period of time.

**Table 17.9
AVERAGE DESIGN LIFE FOR STREETS**

Type of Street	Type of Pavement	Average Design Life
Thoroughfares and Collectors	Concrete	35 years
	Asphalt	18 years
	Penetration	10 years
Local	Concrete	45 years
	Asphalt	24 years
	Penetration	10 years

A system of priority was established for the replacement of streets. Only streets with pavement conditions rated "failed", "serious" or "very poor" were designated as "high priority" streets for replacement. These streets are listed in Table 17.10 and represent 1.3 percent of all street miles in Benbrook. To completely replace all of the "failed, serious, or very poor" streets in the City would cost approximately \$1,503,960, which is beyond the City's current funding availability.

In addition, the 2009 CIP Committee recommended two street projects are part of their recommendations. The first was a new bridge over the Clear Fork to connect the I-20 frontage road with Bellaire Drive to improve connectivity and emergency response, but this project has been deferred indefinitely because of citizen opposition. The second was reconstruction of the portion of Chapin Road between Van Deman/Renzel and the Loop 820 frontage road. Neither project has been funded.

The schedule for funded street improvements is presented in Table 17.11. Four street projects were completed during the current planning cycle. The extension of Benbrook Parkway and Winbrook Drive was completed and funded by the Economic Development Corporation. The second project is the reconstruction of Benbrook Boulevard (US 377) from IH-820 to Winscott/Lakeside Drive is a Texas Department of Transportation (TxDOT) project, with the City's local share using core value funds. The third project extended the existing alley connecting Park Center and Usher Streets to the parking lots adjacent to U.S. Highway 377/Benbrook Boulevard. This project did not qualify for CDBG funds because of the commercial property along the alley. The project was funded by contributions from the adjoining property owners as well as monies from the General Fund. The fourth project was the reconstruction of Timberline Drive between Edgewood Trail and Timberline Court.

Changes in 2015:
The following projects were completed in 2015: the extension of Benbrook Parkway and Winbrook Drive, the alley extension and Timberline Drive reconstruction.

**Table 17.11
SCHEDULED STREET PROJECTS**

Fiscal Year	Street Project	Projected Cost
2015-2016	Widening of Benbrook Boulevard (in progress)	Total = \$ 23,713,974 City Share = \$ 2,836,329
2016-2020	None Designated	NA

**Table 17.10
High Priority Streets in 2015**

Changes in 2015:
Updated with MicroPaver data and
cost estimates in 2015 dollars.

Street Name	Block	Segment	Type of Pavement	Year Constructed	Pavement Condition Index	Pavement Condition	2015 Replacement Cost
Berend Court	8500		Asphalt	1960	10	failed	\$29,580
Kathy Lane	7500	Benbrook Pkwy to corner	Concrete	2000	12	serious	\$141,000
Keller	800	Park Center to John Reagan	Asphalt	1959	19	serious	\$69,660
Plantation	3800B	Berend Ct to La Jolla Court	Asphalt	1960	19	serious	\$57,420

							\$1,503,960

17.4.3 Drainage Facilities

The need to identify and establish priorities for additional drainage projects is accomplished through the development of comprehensive watershed drainage plans. The City has adopted drainage plans for the City in Chapter 9.4 of the Comprehensive Plan.

A system of priority was developed for drainage projects, based on their cost, the number of houses that would be protected, and the order in which they should be built. For example, projects located downstream are rated higher than those upstream and projects on the main channel are rated higher than tributary projects; however, this priority system should also be evaluated against other criteria, such as community need and equity.

In October 2007, the City implemented a new Storm Water Utility Fee, which assesses properties based on the amount of runoff (using impervious area). The intent of this fee is to fund existing indebtedness for drainage projects and to fund new smaller drainage projects with the intent of using this funding source rather than issuing new general obligation debt. The utility generates approximately \$250,000 annually for small new projects. The City Council most recently established priorities for these projects in November 2014, and these have been included in this CIP.

Six projects are planned during the current planning cycle, as shown in Table 17.12. A complete list of unfunded drainage projects, in order of priority, is included in Attachment 17-C in the Appendix and totals over \$33.9 million in 2015 dollars. The projects shown in Attachment 17-C were taken from the Drainage Element (Chapter 9), with costs adjusted to 2015 dollars using current unit costs.

Changes in 2015:
Updated project costs.

Table 17.12
SCHEDULED DRAINAGE PROJECTS

Fiscal Year	Drainage Project	Projected Cost
2015-16	Sundown Drive Drainage	\$373,000
	Plantation West Creek Erosion	\$672,000
	Plantation East Creek Erosion	\$147,000
2016-17	Chapin Road Cross Culvert Replacement and Channel	\$391,000
	Van Deman Drive Drainage (not including Chapin Road reconstruction)	\$500,000
2017-18	Timberline Erosion	\$700,000

17.5 FIVE-YEAR CAPITAL IMPROVEMENTS PROGRAM

17.5.1 Program Summary

Based on an analysis of needs and available funding, the following is a summary of the City of Benbrook's five-year capital improvements program:

**Table 17.13
Program Summary**

Fiscal Year	Community Facilities	Streets	Drainage
0 – (2015-2016)	None Designated	None Designated	Sundown Drive
			Plantation West Creek Erosion
1 – (2016-2017)	None Designated	None Designated	Chapin Road Cross Culvert and Channel
			Van Deman Drive
2 – (2017-2018)	None Designated	None Designated	Timberline Erosion
3 – (2018-2019)	None Designated	None Designated	None Designated
4 – (2019-2020)	None Designated	None Designated	None Designated
5 – (2020-2021)	None Designated	None Designated	None Designated

No additional bonds are currently proposed in the five-year time period from 2016-2021.

17.5.2 Detailed Project Summaries

The following pages provide a detailed summary of each project in the 5-year planning cycle.

(This page is intentionally blank)

YEAR 0
PROJECTS IN PROGRESS
Fiscal year 2015-2016

PROJECT NAME: Benbrook Boulevard Widening

PROPOSED YEAR: 2015

PROJECT DESCRIPTION:

The project to widen Benbrook Boulevard (Hwy 377) from Loop 820 to Inscott/Lakeside Drive continues and will include signalized intersections, landscaped median, left-turn lanes and three travel lanes in each direction.

NEED FOR PROJECT:

Project will increase capacity, reduce congestion, improve safety and enhance the corridor.

PROJECTED COST (2011 dollars):

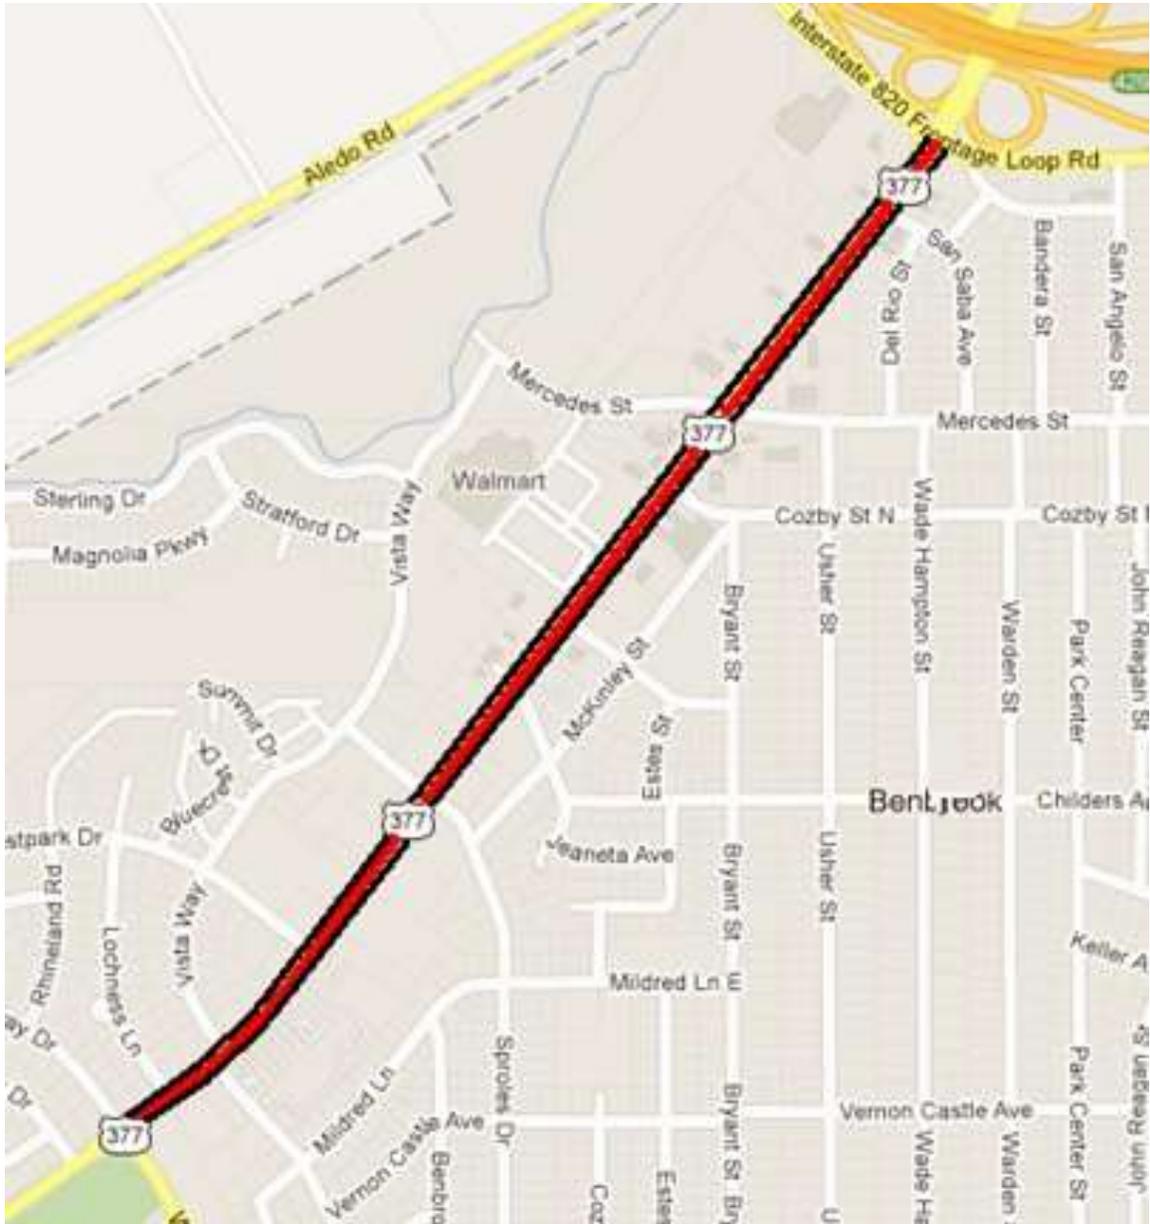

Land acquisition	\$ 750,000
Engineering/Surveying:	\$1,313,400
Utility Relocations	\$2,680,000
Construction:	\$ 18,970,574
Miscellaneous:	<u>\$ 0</u>
TOTAL PROJECT COST:	\$23,713,974

PROPOSED FINANCING:

General Obligation Bonds	\$ 0
City of Benbrook (Core Values Fund)	\$ 2,836,329
Tarrant County (2006 Bond Program)	\$ 1,552,645
Texas Department of Transportation (Prop 12)	\$18,500,000
TxDOT Engineering	\$ 825,000
Developer participation	\$ 0
Paving Assessments	<u>\$ 0</u>
TOTAL FUNDING:	\$23,713,974

PROPOSED SCHEDULE:

Task	Planned mo/yr	Actual mo/yr
Engineering/Surveying	Revised plans 4/2014	4/2014
Land Acquisition	2/2012-4/2014	11/2013
Utility relocations	3/2013-5/2014	1/2014 Oncor 12/2016
Construction	7/2014-10/2016	10/2014-2/2017
Completion Date	10/2016	2/2017

PROJECT NAME: Benbrook Boulevard (US 377) widening

MAP GRID NO: 87P

DATE: 2014/15

APPROX. SCALE: 1" = 1/4 mile

PROJECT NAME: Sundown Drive Drainage Project

PROPOSED YEAR: 2015

PROJECT DESCRIPTION:

The project consists of constructing storm drain inlets along Sundown Drive, Sunnyvale Drive and Twilight Drive to connect the storm water and pipe it underground system to the channel located west of Twilight Drive.

NEED FOR PROJECT:

During heavy rains, water tops the curb and threatens 13 houses on Sundown Drive.

PROJECTED COST (2015 dollars):

Land acquisition	\$ 0
Engineering/Surveying:	\$ 76,000
CLOMR:	\$ 0
Construction:	\$ 297,000
Miscellaneous:	<u>\$ 0</u>
TOTAL PROJECT COST:	\$373,000

PROPOSED FINANCING:

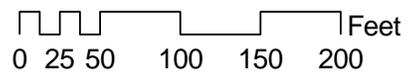

General Obligation Bonds	\$ 0
Certificates of Obligation	\$ 0
General Fund Contribution	\$ 0
Storm Water Utility	\$373,000
Other governments (including grants)	\$ 0
Developer participation	\$ 0
Paving Assessments	<u>\$ 0</u>
TOTAL FUNDING:	\$373,000

PROPOSED SCHEDULE:

Task	Planned (mo/yr)	Actual (mo/yr)
Engineering/Surveying	12/15-6/16	--
Land Acquisition	NA	--
Utility relocations	NA	--
Construction	6/16-12/16	--
Completion Date	12/16	--

Sundown Drive

PROJECT NAME: Plantation West Creek Erosion Project

PROPOSED YEAR: 2015

PROJECT DESCRIPTION:

There are two locations along Plantation West Creek in need of repairs. The first location is located at bridge at Chapin Road to correct scouring occurring at the bridge supports. The second location is at the crossing of the creek over Dawn Drive. The bank is eroding to the point where it could undermine a wingwall of the cross culvert at Dawn Drive and is scouring a very large tree that, if it fell, would damage overhead power lines and possibly a nearby home. Both projects will include armoring the banks to reduce the erosion.

NEED FOR PROJECT:

During heavy rains, fast-moving water causes erosion affecting six homes in the area.

PROJECTED COST (2015 dollars):

Land acquisition	\$ 0
Engineering/Surveying:	\$ 162,000
CLOMR:	\$ 0
Construction:	\$ 510,000
Miscellaneous:	<u>\$ 0</u>
TOTAL PROJECT COST:	\$510,000

PROPOSED FINANCING:

General Obligation Bonds	\$ 0
Certificates of Obligation	\$ 0
General Fund Contribution	\$ 0
Storm Water Utility	\$510,000
Other governments (including grants)	\$ 0
Developer participation	\$ 0
Paving Assessments	<u>\$ 0</u>
TOTAL FUNDING:	\$510,000

PROPOSED SCHEDULE:

Engineering/Surveying	12/15-6/16	--
Land Acquisition	NA	--
Utility relocations	NA	--
Construction	6/16-12/16	--
Completion Date	12/16	--

Plantation West Creek Repairs

This Page Intentionally Left Blank

YEAR 1 PROJECTS

Fiscal Year 2016-2017

PROJECT NAME: Chapin Road Cross Culvert Project

PROPOSED YEAR: 2015/16

PROJECT DESCRIPTION:

During recent inspections, deterioration of the corrugated metal pipe was found in the flowlines and roofs of the pipes. The structural integrity of the pipes will continue to decrease as the corrosion increases, eventually leading to road surface damage and ultimately failure. This project will include replacing the existing double 48-inch corrugated metal arch pipe cross culvert with a reinforced concrete box cross culvert system and correct the downstream erosion issues.

NEED FOR PROJECT:

Deterioration could cause the culvert to collapse shutting down the road, affecting 3,400 vehicles per day.

PROJECTED COST (2015 dollars):

Land acquisition	\$ 0
Engineering/Surveying:	\$ 57,000
CLOMR:	\$ 0
Construction:	\$ 335,000
Miscellaneous:	<u>\$ 0</u>
TOTAL PROJECT COST:	\$335,000

PROPOSED FINANCING:

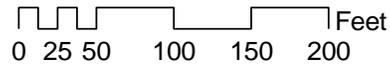

General Obligation Bonds	\$ 0
Certificates of Obligation	\$ 0
General Fund Contribution	\$ 0
Storm Water Utility	\$335,000
Other governments (including grants)	\$ 0
Developer participation	\$ 0
Paving Assessments	<u>\$ 0</u>
TOTAL FUNDING:	\$335,000

PROPOSED SCHEDULE:

Task	Planned (mo/yr)	Actual (mo/yr)
Engineering/Surveying	12/15-6/16	--
Land Acquisition	NA	--
Utility relocations	NA	--
Construction	6/16-12/16	--
Completion Date	12/16	--

Chapin Road Cross Culvert

PROJECT NAME: Van Deman Drive Drainage Project

PROPOSED YEAR: 2015/16

PROJECT DESCRIPTION:

The home on the southwest corner of Chapin Road and Van Deman Drive floods repeatedly, even during light rains. There are no curb inlets at the intersection. The project includes the construction of curb inlets at the intersection and a storm drain line to carry the water to a tributary south and west of Van Deman Drive as shown in the Master Drainage Plan.

NEED FOR PROJECT:

During heavy rains, water tops the curb and threatens four houses on Van Deman Drive. This project will also correct drainage issues in the subdivision.

PROJECTED COST (2015 dollars):

Land acquisition	\$ 0
Engineering/Surveying:	\$ 150,000
CLOMR:	\$ 0
Construction:	\$ 350,000
Miscellaneous:	<u>\$ 0</u>
TOTAL PROJECT COST:	\$500,000

PROPOSED FINANCING:

General Obligation Bonds	\$ 0
Certificates of Obligation	\$ 0
General Fund Contribution	\$ 0
Storm Water Utility	\$500,000
Other governments (including grants)	\$ 0
Developer participation	\$ 0
Paving Assessments	<u>\$ 0</u>
TOTAL FUNDING:	\$500,000

PROPOSED SCHEDULE:

Task	Planned (mo/yr)	Actual (mo/yr)
Engineering/Surveying	12/15-6/16	--
Land Acquisition	NA	-
Utility relocations	NA	--
Construction	6/16-12/16	--
Completion Date	12/16	--

This Page Intentionally Left Blank

YEAR 2 PROJECTS

Fiscal Year 2017-2018

PROJECT NAME: Timberline Erosion Project

PROPOSED YEAR: 2017/18

PROJECT DESCRIPTION:

Timber Creek runs behind several homes in the 1800 block of Timberline Road. The creek has eroded the backyards of several homes. One property has significant erosion to the point that much of the backyard has eroded, a shed is endangered and over time the home will become endangered. The project will armor approximately 500 feet of stream bank.

NEED FOR PROJECT:

During heavy rains, fast-moving water causes erosion affecting six homes in the area.

PROJECTED COST (2015 dollars):

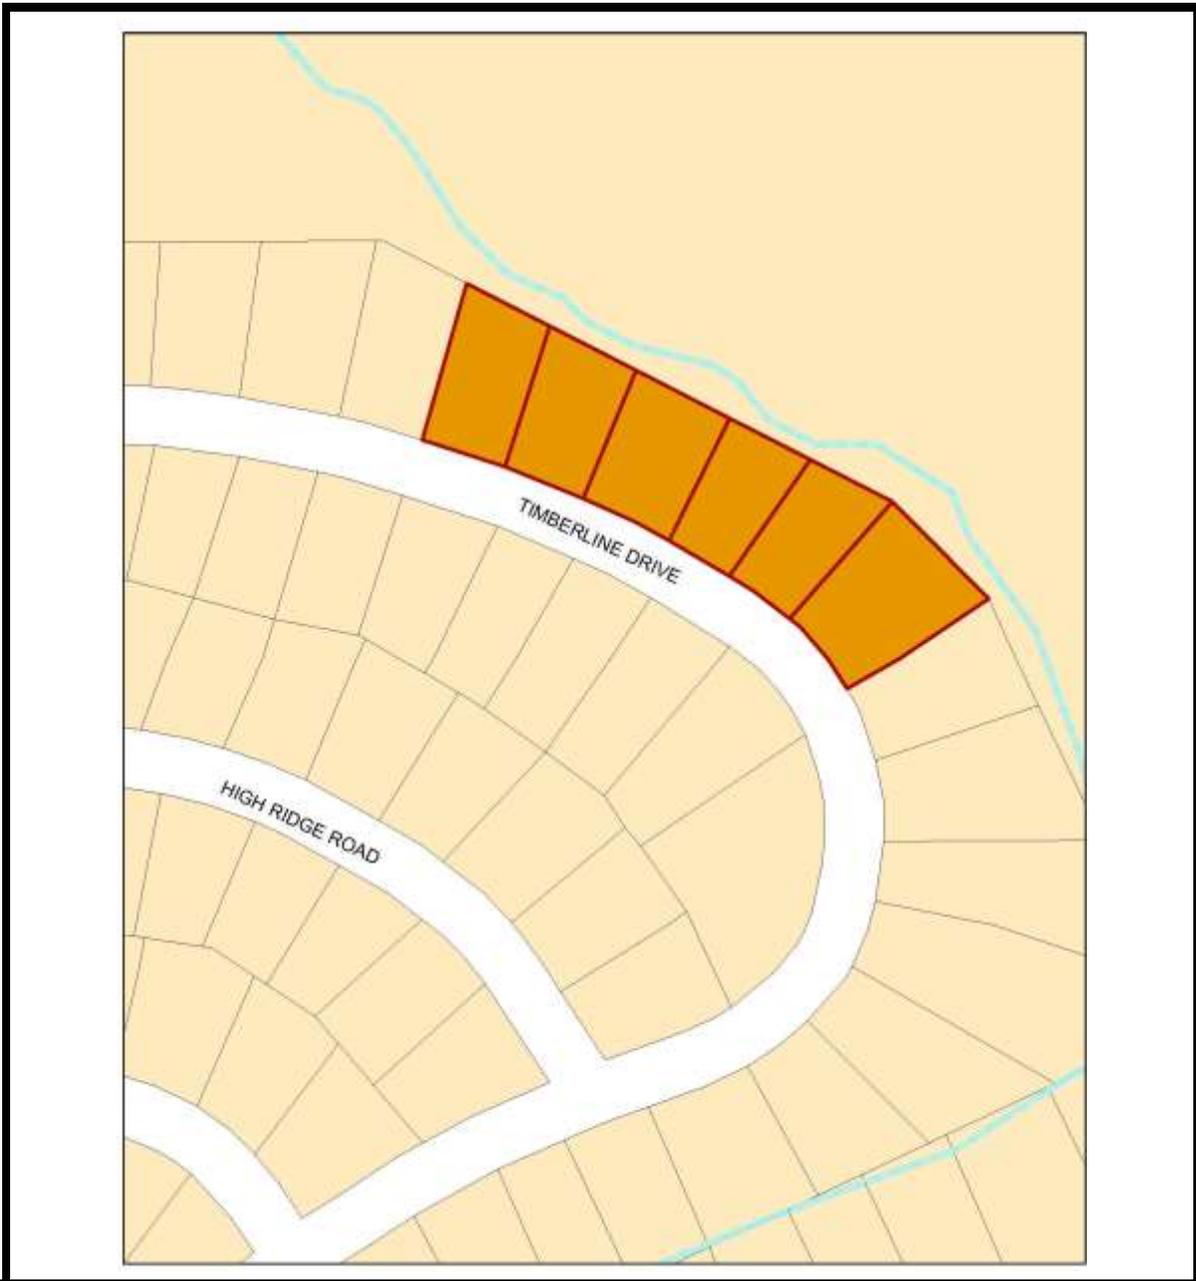

Land acquisition	\$ 20,000
Engineering/Surveying:	\$ 80,000
CLOMR:	\$ 0
Construction:	\$ 600,000
Miscellaneous:	<u>\$ 0</u>
TOTAL PROJECT COST:	\$700,000

PROPOSED FINANCING:

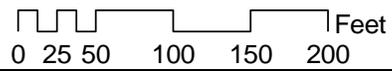

General Obligation Bonds	\$ 0
Certificates of Obligation	\$ 0
General Fund Contribution	\$ 0
Storm Water Utility	\$800,000
Other governments (including grants)	\$ 0
Developer participation	\$ 0
Paving Assessments	<u>\$ 0</u>
TOTAL FUNDING:	\$800,000

PROPOSED SCHEDULE:

Task	Planned (mo/yr)	Actual (mo/yr)
Engineering/Surveying	12/16-6/17	--
Land Acquisition	NA	--
Utility relocations	NA	--
Construction	6/17-12/17	--

APPENDIX
ATTACHMENT 17-A
STATUS OF CAPITAL IMPROVEMENT PROGRAM PROJECTS

TABLE 17-A. STATUS OF CAPITAL IMPROVEMENT PROGRAM PROJECTS
(as of September 30, 2015)

I. COMMUNITY FACILITIES

Fire Protection Improvements - \$1,130,000 approved in 1978

<u>Proposed Projects</u>	<u>Proposed Cost</u>	<u>Project Status</u>	<u>Actual Cost</u>	<u>Estimate to Complete</u>
1. Central Fire Station	\$540,000	completed 2/81	\$482,924	\$0
2. Relocate Maintenance Garage	\$72,000	completed 7/79	\$47,645	\$0
3. Build North Benbrook Substation	\$300,000	completed 6/81	\$300,000	\$0
4. Land for Westpark & Mont Del/RCCE Substations	\$66,000	built Mont Del/RCCE substation 3/83	\$300,000	\$0
5. Purchase Fire equipment	<u>\$150,000</u>	not purchased	<u>\$0</u>	<u>\$0</u>
	\$1,128,000		\$1,130,569	\$0

Community Facilities (Police Building) - \$1,300,000 approved in 1985

<u>Proposed Projects</u>	<u>Proposed Cost</u>	<u>Project Status</u>	<u>Actual Cost</u>	<u>Estimate to Complete</u>
1. Police Building	\$1,100,000	completed 6/87	\$1,131,143	\$0
2. City Hall Renovation	<u>\$200,000</u>	completed 1/88	<u>\$176,885</u>	<u>\$0</u>
	\$1,300,000		\$1,308,028	\$0

Community Facilities (Community Center/YMCA) - \$2,400,000 approved in 1997 (plus \$1,250,000 in Certificates of Obligation)

<u>Proposed Projects</u>	<u>Proposed Cost</u>	<u>Project Status</u>	<u>Actual Cost</u>	<u>Estimate to Complete</u>
1. Community Recreation Center	\$3,519,601	completed 4/01	\$3,911,283	\$0

Fire Ladder Truck Improvements - \$475,000 approved in 1997

<u>Proposed Projects</u>	<u>Proposed Cost</u>	<u>Project Status</u>	<u>Actual Cost</u>	<u>Estimate to Complete</u>
1. Aerial Ladder Fire Truck	\$620,000	Purchased	\$620,000	\$0

COMMUNITY FACILITIES CONTINUED

Fire Station Site Acquisition - \$285,000 approved in 2004

<u>Proposed Projects</u>	<u>Proposed Cost</u>	<u>Project Status</u>	<u>Actual Cost</u>	<u>Estimate to Complete</u>	
1. Acquire Fire Station Site in Whitestone	\$285,000	acquired 6/04	\$110,000		\$0
Other Projects					
1. Senior Citizens Center	\$167,787	completed 8/90	\$194,257		\$0
2. Senior Center parking expansion	\$10,483	completed 6/91	\$1,480		\$0
3. Outdoor Assembly Area	\$56,257	completed 8/92	\$65,263		\$0
4. Senior Center Expansion	\$63,394	completed 5/93	\$70,932		\$0
5. Senior Citizens Activity Center	\$163,946	completed 3/97	\$163,946		\$0
6. Senior Citizens Activity center (Phase 2)	\$72,366	completed 3/98	\$72,366		\$0
7. Senior Citizens Activity Center (Phase 3)	\$119,500	completed 4/99	\$119,500		\$0
8. Dutch Branch Restroom No.1	\$109,122	completed 7/00	\$109,122		\$0
9. Dutch Branch Restroom No. 2	\$67,036	completed 9/01	\$60,146		\$0
10. Dutch Branch Concession Stand	\$155,000	completed 2002	\$156,794		\$0
11. Dutch Branch restroom No. 3	\$79,900	completed 2004	\$79,900		\$0
12. BCC/YMCA Parking Lot Expansion	\$85,000	completed 2004	\$86,125		\$0
13. BCC/YMCA Phase 2 Expansion	\$885,000	completed 2010	\$896,718		\$0
14. Pedestrian Bridges at Twilight Park and at Timbercreek Park	\$160,000	completed 2010	\$163,816		\$0
15. Rolling Hills Park	\$832,574	completed 2012	\$832,574		\$0
16. Central Fire Station expansion		completed 2013	\$2,233,300		\$0
17. Winscott Rd Hike & Bike Trail (north)	\$120,000	completed 2013	\$100,000		\$0
18. Winscott Rd Hike & Bike Trail (south)	<u>\$10,000</u>	completed Fall 2013	<u>\$10,000</u>		<u>\$0</u>
	\$3,157,365		\$5,416,239		\$0

COMMUNITY FACILITY SUMMARY

Total Revenues	
Bond Sales	\$5,305,000
Certificates of Obligation	\$1,250,000

Drainage Improvements - \$2,630,000 approved in 1997

<u>Proposed Projects</u>	<u>Proposed Cost</u>	<u>Project Status</u>	<u>Actual Cost</u>	<u>Estimate to Complete</u>
1. Winding way	\$125,000	completed 2002	\$183,056	\$0
2. Mont Del/CityView Pond	\$450,000	completed	\$644,735	\$0
3. Timber Creek, Winscott to park	\$445,968	completed 2004	\$1,595,009	\$0
4. Plantation East Creek bridge	\$111,320	completed	\$123,653	\$0
5. Plantation Drive at Llano Avenue	\$93,560	completed	\$94,295	\$0
6. Timber Creek, Sta 0+00 to 36+00	\$571,981	completed 2006	\$1,023,311	\$0
7. Dry Branch	\$387,942	completed	\$281,120	\$0
	<u>\$2,185,771</u>		<u>\$3,945,179</u>	<u>\$0</u>

DRAINAGE IMPROVEMENTS CONTINUED

Drainage Improvements - \$3,700,000 approved in 2004

<u>Proposed Projects</u>	<u>Proposed Cost</u>	<u>Project Status</u>	<u>Actual Cost</u>	<u>Estimate to Complete</u>
1. Plantation West Creek	\$1,637,771	completed 2008	\$2,375,134	\$0
2. Tara Channel (Plantation East Creek)	\$1,009,089	completed 2010	\$1,308,348	\$0
3. Timbercreek/Edgewood storm drain	\$387,000	completed 2005	\$437,696	\$0
4. Timber Creek culverts	\$223,451	completed 2006	\$225,451	\$0
5. Willow Bend culverts	\$357,643	combined with Plantation West	\$38,241	\$0
	<u>\$3,614,954</u>		<u>\$4,384,870</u>	<u>\$0</u>
Additional Projects				
1. Winscott Drainage	\$0	Completed 10/83	\$150,717	\$0
2. Mildred/Bryant	\$0	Completed 2/88	\$11,361	\$0
3. Mont Del	\$0	Completed 3/87	\$6,496	\$0
4. Idledell	\$0	Completed 8/87	\$1,660	\$0
5. FEMA study	\$0	Completed 12/84	\$16,373	\$0
6. Springbranch	\$0	Completed 6/88	\$5,989	\$0
7. Winding Way	\$0	Completed 5/89	\$135,836	\$0
8. Plantation East Creek	\$0	Completed 10/91	\$1,842,994	\$0
9. Del Rio Drainage	\$0	Completed 6/91	\$22,994	\$0
	\$0		\$2,194,420	\$0

Drainage Improvements - Storm Water Utility Fund begun in 2007

<u>Projects</u>	<u>Proposed Cost</u>	<u>Project Status</u>	<u>Actual Cost</u>	<u>Estimate to Complete</u>
1. Briar Run	\$50,000	completed 5/2011	\$59,000	\$0
3. Edge Hill	\$240,000	completed 6/2013	\$296,138	\$0
3. Bryant	\$122,840	completed August/2014	\$151,983	\$0
4. Sundown	\$290,000	pending		\$373,746
5. Plantation West Creek	\$150,000	pending		\$672,000
6. Plantation East Creek	\$120,000	pending		\$146,967
7. Chapin Road Cross Culvert	\$275,000	pending		\$408,040
8. Van Deman Drive Drainage	\$161,000	pending		\$499,815
9. Timberline Erosion	\$800,000	pending		\$699,400
	<u>\$2,208,840</u>		<u>\$507,121</u>	<u>\$2,799,968</u>

DRAINAGE SUMMARY

Total Revenues	
Bond Sales	\$9,955,000
Certificates of obligation	\$3,000,000
Grant funds	\$22,994
Use of Money & Property	\$1,619,300
Contribution from Mont Del HOA	\$50,000
Other revenues	\$701,006
General fund transfers to date	\$1,035,036
Storm Water Utility revenues	<u>\$8,602,515</u>
	\$24,985,851
Total Expenditures	
Projects	\$14,436,303
Debt Service	\$7,656,517
Other Administrative Costs	<u>\$75,837</u>
	\$22,092,820
Current Drainage Fund Balance	\$2,893,031
Estimate to Complete	\$2,799,968
Additional Bonds Authorized	\$0
Additional Funding Sources Planned	\$0
Additional General Fund transfers	\$0
Net Available	\$93,063

The cash flow analysis assumes the pending drainage projects will be completed over the next four years, and it includes the revenues collected and expenditures for the next four years.

City of Benbrook

CITY COUNCIL COMMUNICATION

DATE: 2-4-2016	REFERENCE NUMBER: TIF-2016-01	SUBJECT: RATIFY FIRST AMENDMENT FOR BENBROOK TOWNE CROSSING AND APPROVE RESOLUTION AUTHORIZING CITY MANAGER TO SIGN	PAGE: 1 of 4
-------------------	----------------------------------	--	-----------------

**STAFF REPORT
TAX INCREMENT FINANCE DISTRICT BOARD MEETING
NOVEMBER 30, 2015**

The TIF Board was briefed in May about the ongoing negotiations of a Supplemental Developer Agreement for the Benbrook Towne Crossing Project (now called Benbrook Field). Although the final language of the Agreement has not been settled, the major points of the Agreement appear to be settled.

Under the terms of the Agreement, the TIF and/or City would:

1. Retain an engineering firm to design the extension of Vista Way from Mercedes Street to the I-20 frontage road,
2. The TIF would share the cost of a flood study along Walnut Creek with BBT (the Developer),
3. The TIF would construct Vista Way and any necessary associated utilities and appurtenances
4. The City would facilitate and support a revised preliminary plat,
5. The TIF will retain an engineering firm to design Benbrook Field Drive and an access drive behind McDonalds,
6. The City will support a modification to the PD restriction on the property adjacent to Benbrook Field Drive to accommodate development on the remaining narrow lot,
7. The TIF will construct Benbrook Field Drive and the access drive behind McDonalds, along with any necessary utilities and appurtenances,
8. The TIF will construct a 24-foot wide access drive from Mercedes Street to the Wal-Mart parking lot behind Russell Feed,
9. The TIF will add reimbursement of a traffic signal at Benbrook Field Drive and Benbrook Boulevard as an eligible expense, and
10. Other than the traffic signal and the Mercedes property reimbursement, TIF expenses on this supplemental Agreement will not be charged to the Benbrook Towne Crossing SubAccount.

SUBMITTED BY:	DISPOSITION BY COUNCIL: <input type="checkbox"/> APPROVED <input type="checkbox"/> OTHER (DESCRIBE)	PROCESSED BY:
		CITY SECRETARY
CITY MANAGER		DATE:

DATE: 12-19-2002	REFERENCE NUMBER: TIF-2016-01	SUBJECT: RATIFY FIRST AMENDMENT FOR BENBROOK TOWNE CROSSING AND APPROVE RESOLUTION AUTHORIZING CITY MANAGER TO SIGN	PAGE: 2 of 4
---------------------	-------------------------------------	--	-----------------

Also under the Agreement, BBT would:

1. Dedicate the right-of-way for the extension of Vista Way, but retain the mineral rights. A deed reverter would return the right-of-way if the TIF did not complete the street work within a specified time period.
2. BBT will surrender their \$30,000 in escrow to go toward the design of Vista Way,
3. BBT will donate approximately 2.1 acres to the City, though BBT will retain the mineral rights,
4. BBT will dedicate the right-of-way and easements for Benbrook Field Drive and a drive connection to Albertson behind McDonalds,
5. BBT will dedicate a 10-foot-wide utility easement behind the businesses along Benbrook Boulevard to facilitate the relocation of the overhead electric lines,
6. BBT will donate approximately 0.68 acres at the intersection of Mercedes Street and Benbrook Boulevard to the City. The donation will be eligible for reimbursement from the TIF of up to \$500,000, and
7. BBT will donate a 24-foot-wide access easement from Mercedes Street to the Wal-Mart parking lot behind Russell Feed.

FINANCING

The estimated cost of the proposed Agreement to the TIF is approximately \$3.5 million, less approximately \$70,000 that will be derived from BBT (\$30,000 escrow and \$40,000 share of the flood study.) The TIF currently has approximately \$2.9 million in reserves and the TIF should receive an additional \$1.25 million in TIF revenues during the coming year.

RECOMMENDATION

Staff recommends that the TIF Board authorize the approval of the Supplemental Agreement, contingent on agreement by the TIF President, Staff and TIF attorney on the final language. Furthermore, the TIF Board should authorize the TIF President to execute the Agreement when finalized.

DATE: 12-19-2002	REFERENCE NUMBER: TIF-2016-01	SUBJECT: RATIFY FIRST AMENDMENT FOR BENBROOK TOWNE CROSSING AND APPROVE RESOLUTION AUTHORIZING CITY MANAGER TO SIGN	PAGE: 3 of 4
---------------------	-------------------------------------	--	-----------------

**UNAPPROVED MINUTES OF THE
TAX INCREMENT FINANCE DISTRICT BOARD
NOVEMBER 30, 2015**

**IV. APPROVE SUPPLEMENTAL DEVELOPER PARTICIPATION AGREEMENT FOR
BENBROOK TOWNE CROSSING (BENBROOK FIELD) PROJECT**

Dave Gattis gave an overview of the proposed Agreement that had been under negotiation for approximately a year and the TIF Board had been briefed on at their May 2015 meeting. What is being presented today is the final Agreement.

The major points of the Agreement are:

1. The City (TIF) will design and construct Vista Way from Mercedes Street to the I-20 frontage Road. The City (TIF) will also split the cost of a flood study to revise the floodplain between Mercedes Street and IH-20.
2. In return BBT will dedicate the necessary right-of-way for Vista Way (but retain mineral rights.)
3. City will design and construct Benbrook Field Drive adjacent to McDonalds, and construct a 24-foot wide access drive from Benbrook Field to Albertsons.
4. The City will cooperate with BBT to revise the Preliminary Plat of Benbrook Field and remove many of the restrictions that were tied to construction of Vista Way and City will waive filing fees.
5. City will retain the existing escrow funds for Vista Way to use toward the design.
6. In return for City (TIF) spending a couple of million dollars on Vista Way and Benbrook Field Drive, BBT will convey:
 - a. Approximately 2.1 acres on Vista Way behind RaceTrak, and
 - b. Approximately 0.68 acres at the intersection of Benbrook Boulevard and Mercedes Street (the old Ryon Branding Iron property). BBT will be eligible for the \$500,000 TIF reimbursement for this property contained in the original Agreement. BBT will also convey a 24-foot wide access easement to allow the City/TIF to build a drive between Mercedes Street and the WalMart parking lot behind Russell Feed.
7. BBT will convey a 10-foot-wide utility easement between Mercedes Street and IH-20 to facilitate the relocation of the overhead electric lines along Benbrook Boulevard.
8. The traffic signal at Benbrook Boulevard and Benbrook Field Drive would become

DATE: 12-19-2002	REFERENCE NUMBER: TIF-2016-01	SUBJECT: RATIFY FIRST AMENDMENT FOR BENBROOK TOWNE CROSSING AND APPROVE RESOLUTION AUTHORIZING CITY MANAGER TO SIGN	PAGE: 4 of 4
---------------------	-------------------------------------	--	-----------------

eligible for TIF reimbursement. Other than the traffic signal, all other expenses in the Agreement will be paid from TIF funds other than the Benbrook Towne Center subaccount.

Motion by Mr. Rutigliano to approve supplemental developer participation agreement for Benbrook Towne Crossing (Benbrook Field) project, seconded by Ms. Culbertson.

Ayes: All
Noes: None

Motion carried unanimously.

Mr. Gattis noted that the next step would be to call a meeting of the TIF Board to authorize the engineering contract(s).

RECOMMENDATION TO CITY COUNCIL

Staff recommends that the City Council approve the Agreement between the TIF and BBT for the design and construction of Vista Way and authorize the City Manager to sign the Agreement.

STATE OF TEXAS)

COUNTY OF TARRANT)

**FIRST AMENDMENT TO DEVELOPER PARTICIPATION
AGREEMENT FOR
BENBROOK TOWNE CROSSING PROJECT**

This First Amendment (the "Amendment") to the Developer Participation Agreement For Benbrook Towne Crossing Project (the "Original Agreement") is entered into by and between the City of Benbrook, a Texas municipal corporation of Tarrant County, Texas (hereinafter called "City"), and BBT Crossing, Ltd., a Texas Limited Partnership (hereinafter called "BBT"). In addition, the following parties consent to this Supplemental Agreement: (1) the Benbrook Tax Increment Finance District No. 1, a Texas Non-Profit Corporation ("TIF"), (2) BBT Crossing GP Corporation, a Texas corporation ("GP") and (3) Bo Peek Limited, a Texas Limited Partnership ("BPL") (TIF, BPL and GP are hereinafter collectively called the "Consenting Parties" or individually called a "Consenting Party").

RECITALS

- A. The City desires to proceed at its expense, but using only the Tax Increment Fund, and no general fund City revenues, with the design and construction of the extension of Vista Way from Mercedes Street to the I-20 frontage road as shown in the approved Benbrook TIF Reinvestment Zone No. 1 Project Plan and Financing Plan; modify the terms of the Original Agreement with respect to the Parties' respective obligations; and modify certain other aspects of the Original Agreement to provide for the construction by City, but using only the Fund, and no general fund City revenues, of Benbrook Field Drive, the construction by City, but using only the Tax Increment Fund, and no general fund City revenues, of an access drive from Benbrook Field Drive to the Albertson's property, the construction of an access drive connecting Mercedes Street and the WalMart parking lot, and the construction of a traffic signal at the intersection of Benbrook Field Drive and Benbrook Boulevard; and
- B. The public improvements described above are within the tax-increment financing area as previously defined in the Original Agreement; and
- C. The public improvements described above shall be undertaken by the City at its expense but using only the portion of the Tax Increment Fund available to City and no general City revenues.

TERMS OF AMENDMENT

NOW, THEREFORE, in consideration of the mutual covenants and obligations herein, the parties agree as follows:

I. ORIGINAL AGREEMENT

The Amendment amends, but does not replace, the Original Agreement, a copy of which is attached hereto as Attachment A. Except as expressly modified in this Amendment, the Original Agreement shall continue in full force and effect. In the event of a conflict between this Amendment and the Original Agreement the terms of this Amendment shall control.

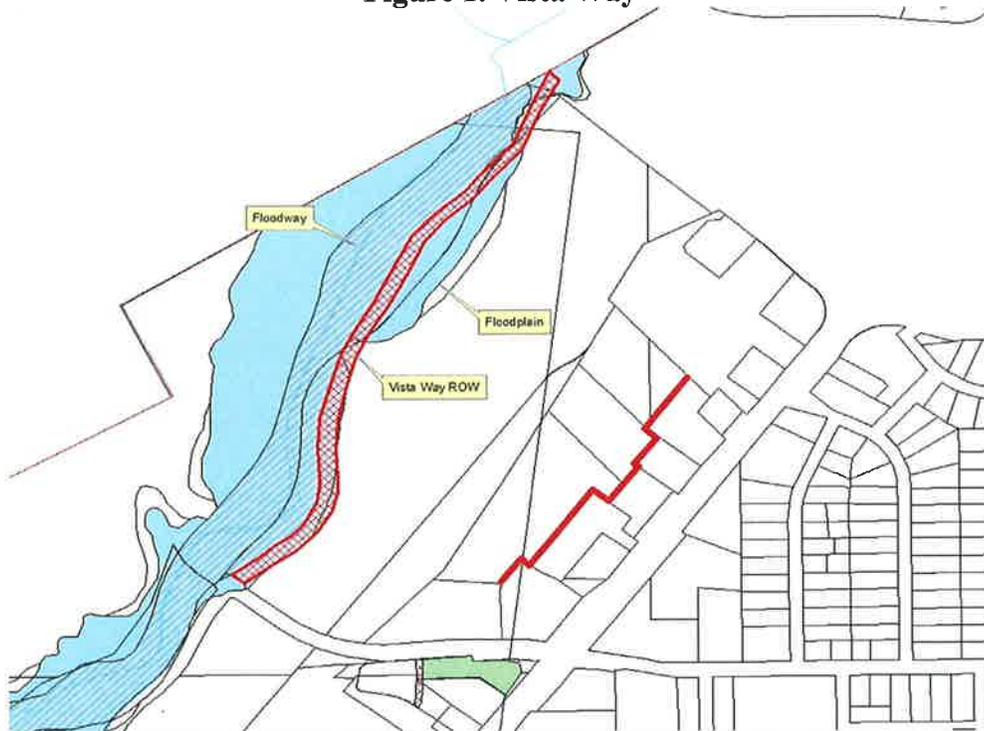

II. DEFINITIONS

- A. The Definitions contained in the Original Agreement are incorporated into the Amendment by reference.

III. DEVELOPMENT OF VISTA WAY

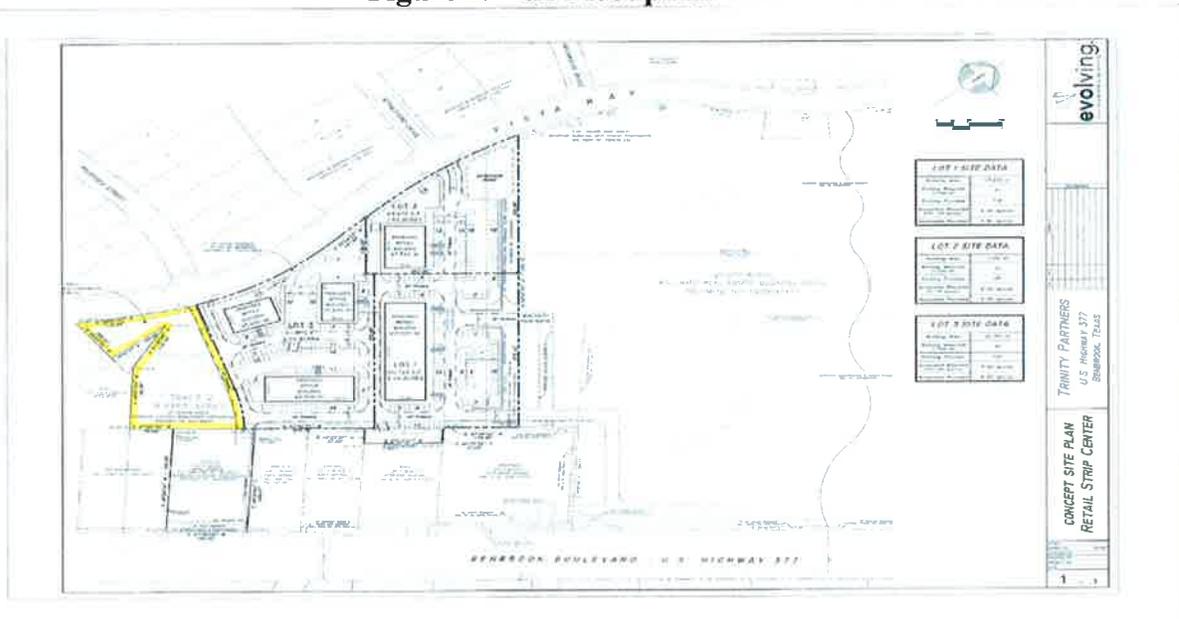

- A. The City will retain an engineering firm to design and prepare plans and contract documents for the extension of Vista Way from Mercedes Street to the I-20 frontage road in the general location shown on the July, 2010 preliminary Plat of Benbrook Field (see Figure 1, below), including surveying, geotechnical surveys and environmental permitting. The City and BBT will coordinate and agree upon the final alignment of the right-of-way based on the preliminary engineering plans.

Figure 1. Vista Way

- B. The City and BBT will jointly pay the cost of a flood (H&H) study of Walnut Creek necessary to identify and modify (if necessary) the FEMA flood boundaries to accommodate the final alignment of Vista Way, including submittal of a CLOMR/LOMR to FEMA. The engineering firm, scope and division of fees will be mutually-agreed upon in writing by both parties prior to execution of a contract with the engineering firm.
- C. Subject to the completion of the activities described in A and B above, receipt of any required approvals from the federal government and final approval of the Revised Preliminary Plat described in E below, BBT will convey to the City by special warranty deed the 60-foot-wide right-of-way for Vista Way. BBT will retain all mineral rights for any property conveyed. This deed will also contain reversion rights providing for a reversion to BBT if Vista Way has not been completed within two years from the date of the deed.
- D. The City will construct to City standards the Vista Way street pavement and any associated utilities or other appurtenances required to be located within the Vista Way right-of-way, including any water, sanitary sewer lines, storm drains, sidewalks, street lights and/or retaining walls required, between Mercedes Street and the Interstate 20 frontage road.
- E. The City will cooperate with BBT to facilitate BBT filing and obtaining approval of a revised Preliminary Plat of Benbrook Field (the "Revised Preliminary Plat"), such Revised Preliminary Plat to include deletion of the Implementation Notes and the other changes contemplated by this Amendment, provided that by this Amendment, the City does not waive any governmental requirement, regulation or review authority or agree in advance to approval of the Revised Preliminary Plat or any other document or request that requires City governmental approval. The form and substance of the Revised Preliminary Plat shall be acceptable to BBT in its sole discretion. The City will waive all City fees relating to the filing of the Revised Preliminary Plat.
- F. The current escrow contribution dedicated to Vista Way by prior platting (\$30,000.00) to the City, shall be used for the Vista Way design and construction.
- G. Upon and subject to the completion of Vista Way, BBT will convey to the City approximately 2.1 acres of non-floodplain property to the City in the general location shown highlighted in yellow in Figure 2. BBT will retain all mineral rights for the property conveyed. The property to be conveyed will be separately platted. BBT agrees to cooperate with the City to separately plat the property to be conveyed, but all expenses for preparation and filing of such separate plat shall be paid by the City. BBT will not be required to pay for preparation and filing of such plat.

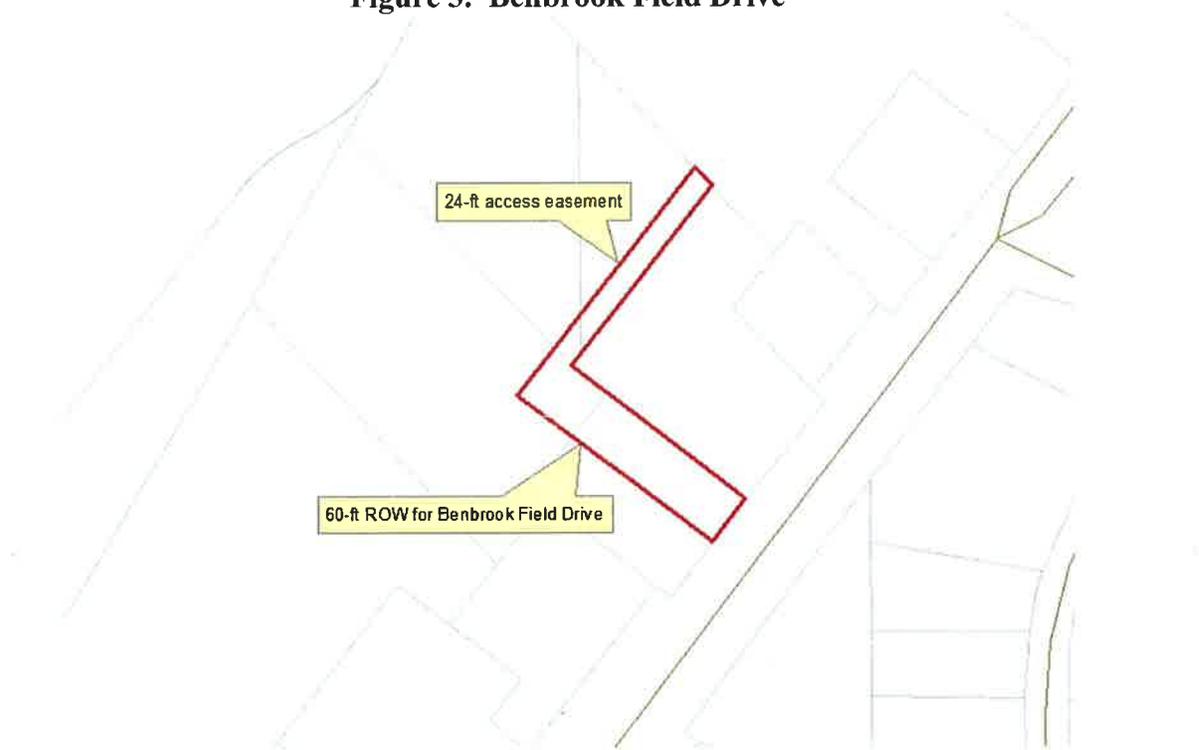

Figure 2. Non-Floodplain Site

IV. DEVELOPMENT OF BENBROOK FIELD DRIVE

- A. The City will, at City's expense, retain an engineering firm to design and prepare plans and contract documents to construct Benbrook Field Drive from Benbrook Boulevard (US 377) to the turn at the rear of the McDonalds property, and construct a 24-foot wide access drive and fire lane to the Albertsons property, as generally shown on the July 2010 preliminary Plat of Benbrook Field (see Figure 3), including surveying, geotechnical surveys and TxDOT permits. BBT's Revised Preliminary Plat shall eliminate the cul-de-sac requirement contingent on the access drive to be constructed by the City from Benbrook Field Drive to the Albertsons property. The City will waive all City fees relating to application for the Revised Preliminary Plat described in this section.

Figure 3. Benbrook Field Drive

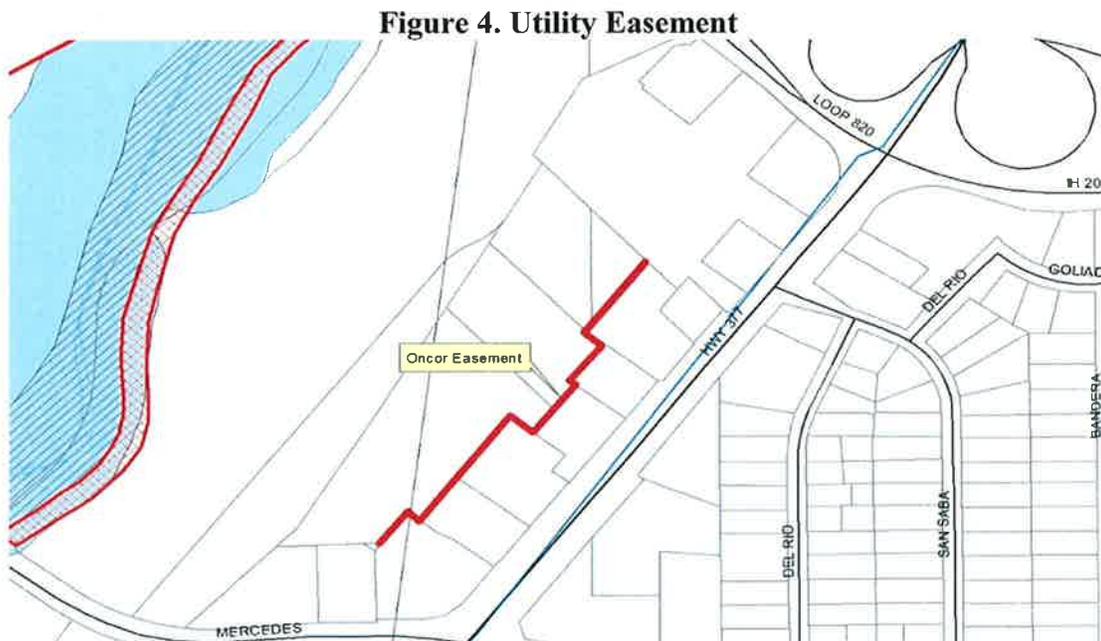

- B. Subject to completion of the activities described in paragraph A above, receipt of any required approvals from the federal government and final approval of the Revised Preliminary Plat, BBT will convey to the City by special warranty deed the 60-foot-wide right-of-way for Benbrook Field Drive. The City will cooperate with BBT on site plan approval to facilitate development on the remainder of proposed Lot 2, Block 2, to the extent permissible by law, provided that by this Amendment, the City does not waive any governmental requirement, regulation or review authority or agree in advance to approval of any site plan or any other document or request that requires City governmental approval.. BBT will retain all mineral rights for any property conveyed. The deed will contain reversion rights if Benbrook Field Drive is not completed within two years after conveyance of the right of way.

- C. The City will construct Benbrook Field Drive from Benbrook Boulevard (US 377) to the turn at the rear of the McDonald's property, and construct a 24-foot wide access drive and fire lane to the Albertsons property referenced above, including any associated utilities or appurtenances to be located within the Benbrook Field Drive right-of-way, including water, sanitary sewer, storm drainage, street lights and sidewalks.

- D. Subject to completion of the activities described in paragraph A above, final approval of the Revised Preliminary Plat and satisfaction of the conditions set forth in paragraph E below, BBT will convey to the City a 24-foot-wide perpetual easement for the access drive and fire lane between the Benbrook Field Drive cul-de-sac and the Albertsons property to the

northeast. The access easement shall be in a location that is mutually acceptable to both parties. BBT will provide any necessary temporary construction easements needed by the City to facilitate such construction. Such construction easements will be for the duration of the construction only. The Revised Preliminary Plat will amend the proposed 28-foot wide access drives and replace them with 24-foot drives consistent with the City's current fire lane requirements.

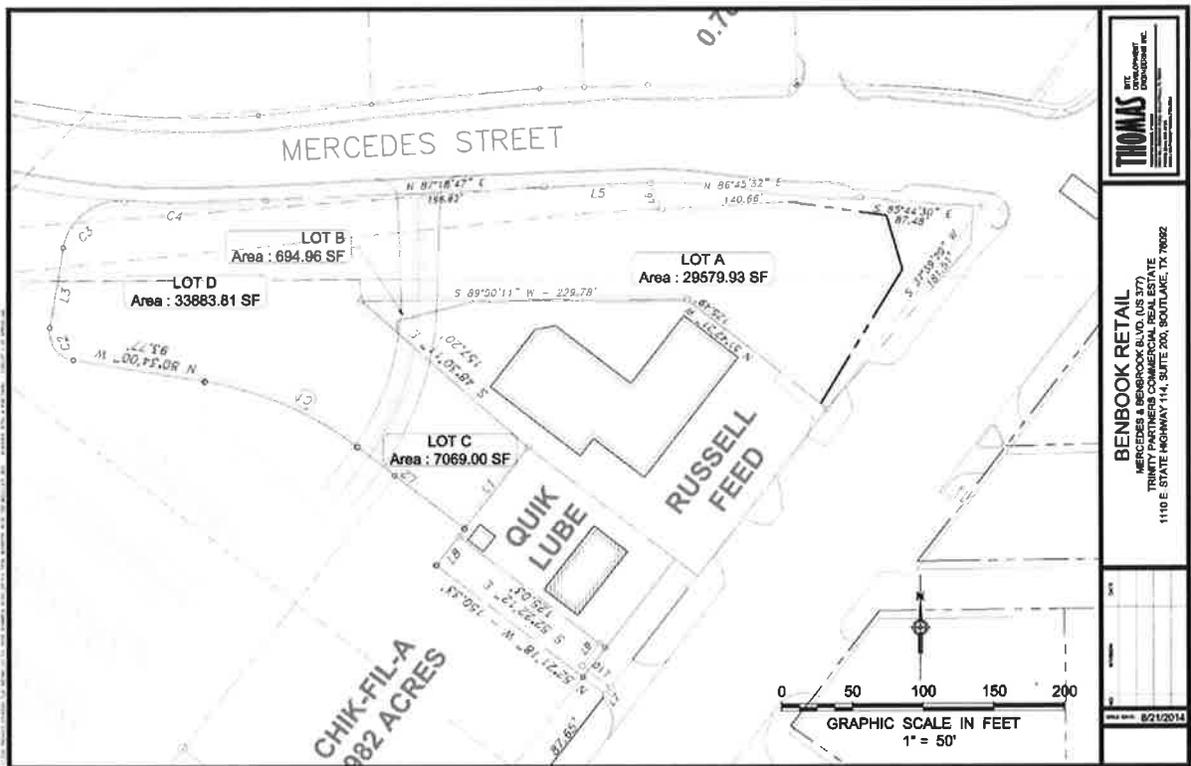

- E. The conveyance of the access easement is expressly conditioned upon and subject to the written agreement of the Alberston's property owner waiving and releasing the grocery exclusive deed restriction currently affecting portions of the BBT Property.
- F. BBT will convey to the City a 10-foot-wide utility easement in the general location shown in Figure 4, along with any necessary transformer pad easements, to facilitate the relocation of overhead utility lines along Benbrook Boulevard. The City will pay the cost of installing the electrical lines underground within the easement. The utility easement grant will provide that BBT will retain surface rights to construct landscaping irrigation, directional signage, and flatwork (drives, parking lots, etc.) over the easement, provided that any use of the surface by BBT will be consistent with the City's easement rights and shall not interfere with the City's utility facilities. Such surface rights shall be subject to such terms as determined reasonably necessary by the City to protect the structural integrity of the utility lines to be installed in the utility easement. The electric easement shall be conveyed to City upon and subject to approval of the Revised Preliminary Plat.

V. DEVELOPMENT OF THE MERCEDES STREET INTERSECTION AREA

- A. Upon and subject to satisfaction of the conditions set forth below, BBT agrees to convey to the City by special warranty deed the property at the intersection of Benbrook Boulevard and Mercedes Street, in the general location shown as Lots A, C and D in Figure 5 (approximately 0.68 acres). The donation of this property to the City by BBT shall satisfy the requirement of “public use through the voluntary purchase” of the property as provided in Section 1, Paragraph O of the Original Agreement. The obligation of BBT to convey Lot A shall be conditioned upon completion of Vista Way construction by City. The obligation of BBT to convey Lots C and D shall also be conditioned upon BBT receiving \$500,000.00 reimbursement for the original cost of the property from the Towne Crossing Sub-Account.

Figure 5. Mercedes Street area

- B. The conveyance of the property to the City by BBT shall satisfy the requirement of “public use through the voluntary purchase” of the property as provided in Section 1, Paragraph O of the Original Agreement.
- C. BBT will at the time of conveyance of Lot A convey to the City a 24-foot wide access easement between Mercedes Street and the WalMart parking lot in the general location shown in Figure 5. The exact alignment of the access easement will be in a location that is mutually acceptable to both the City and BBT. BBT will dedicate this access easement subject to City securing the portion of the easement described as Lot B from Kenny Russell.

- D. The City will construct at the City's expense a 24-foot-wide drive within the access easement which connects the WalMart property to the Russell Feed site and Mercedes Street.

VI. OTHER BBT ITEMS

- A. The Original Agreement is amended to allow BBT to construct the traffic signal at the intersection of Benbrook Field Drive and Benbrook Blvd., with the expenses for such construction to be eligible for reimbursement to BBT under the Original Agreement.
- B. Other than the traffic signal discussed in the immediately preceding paragraph, the City will not charge any expenditures made for any of the public improvements incurred by the City hereunder against any revenues or expenses outlined in and allocated to the Towne Crossing Sub-Account.

VIII. REPRESENTATIONS AND WARRANTIES; COOPERATION

- A. BBT hereby represents and warrants to City that (1) BBT has full lawful right, power and authority to execute and deliver and perform the terms and obligations of this Amendment and (2) that the execution and delivery of this Amendment has been duly authorized by all necessary official action by BBT and (3) this Amendment constitutes a legal, valid and binding obligation of BBT, and is enforceable in accordance with its terms and provisions.
- B. The City hereby represents and warrants to BBT that (1) the City has full lawful right, power and authority to execute and deliver and perform the terms and obligations of this Amendment and (2) that the execution and delivery of this Amendment has been duly authorized by all necessary official action by the City and (3) this Amendment constitutes a legal, valid and binding obligation of the City, and is enforceable in accordance with its terms and provisions.

IX PAYMENT OF EXPENSES BY CITY

- A. Notwithstanding anything to the contrary contained herein, all obligations of City hereunder shall be funded only from the portion of the Tax Increment Fund available to City from time to time. City shall not be required to use general City revenues to fund any such obligations.
- B. Nothing in this Amendment shall modify, amend or affect the continued allocation and deposit of funds into the Towne Crossing Sub-Account or the payment of sums to BBT from the Towne Crossing Sub-Account as provided in the Original Agreement.

END OF PAGE – SIGNATURES TO FOLLOW

EXECUTED and effective as of the ____ day of _____, 2016, by the City, signing by and through its City Manager, duly authorized to execute same by Resolution No. _____ by the City Council, on _____, 2016, and by BBT, acting through its duly authorized general partner, on _____, 2016.

RESOLUTION NO. 2016-01

A RESOLUTION APPROVING THE FIRST AMENDMENT TO DEVELOPER PARTICIPATION AGREEMENT FOR BENBROOK TOWNE CROSSING PROJECT AND AUTHORIZING THE CITY MANAGER TO EXECUTE SAID AGREEMENT.

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF BENBROOK, TEXAS:

SECTION 1

That the First Amendment to the Developer Participation Agreement for the Benbrook Towne Crossing Project between the City of Benbrook, BBT Crossing, Ltd., the Benbrook Tax Increment Finance District, Bo Peek Limited, and BBT Crossing GP Corporation for the design and construction of Vista Way, Benbrook Field Drive, and other considerations, approved by the TIF Board on November 30, 2015, is hereby approved.

SECTION 2

That the City Manager is hereby authorized to execute said Agreement on behalf of the City of Benbrook.

Passed and approved this 4th day of February, 2016.

CITY COUNCIL COMMUNICATION

DATE: 02/04/16	REFERENCE NUMBER: G-2229	SUBJECT: Accept Hotel/Motel Tax Report for quarter ending December 31, 2015	PAGE: 1 of 1
-------------------	-----------------------------	--	-----------------

Revenues

Revenues for the City's hotel/motel occupancy tax fund totaled \$35,514 for the quarter beginning October 1, 2015 and ending December 31, 2015. Revenue from the hotel/motel occupancy tax totaled \$34,469. The remainder of the revenue was realized from the sale of DVDs and apparel, donations and interest income.

Expenditures

Expenses for this quarter totaled \$40,314. The City Visitor Center expenditures were \$29,602. The Benbrook Area Chamber of Commerce requested reimbursement of \$1,000 for visitor support and \$2,500 for the Chamber Cook-Off. Expenses for Heritage Fest were \$27. Winter Wonderland expenses were \$7,185.

Net Change in Financial Position

For the first quarter of the 2015-16 fiscal year, the fund balance for the hotel/motel occupancy tax fund decreased by \$4,800 from \$312,939 to \$308,139.

For the 2015-16 fiscal year, total revenues of \$35,514 were exceeded by year-to-date expenditures of \$40,314 by \$4,800.

RECOMMENDATION

Staff recommends that City Council accept the Hotel/Motel Tax Report for the period ending December 31, 2015.

City of Benbrook

CITY COUNCIL COMMUNICATION

DATE: 02/04/16	REFERENCE NUMBER: G-2230	SUBJECT: Adopt Resolution authorizing Texas Coalition for Affordable Power (TCAP) to procure electricity for 2018-2022	PAGE: 1 of 2
-------------------	-----------------------------	---	-----------------

The City of Benbrook is a member of the Texas Coalition for Affordable Power, Inc. (TCAP), a non-profit, political subdivision corporation, owned and controlled by its 171 political subdivision members, the vast majority of whom are cities. TCAP was formed in 2011 from the merger of Cities Aggregation Power Project (“CAPP”) and South Texas Aggregation Project (“STAP”), both of which were created in 2001, shortly before retail deregulation became effective on January 1, 2002. TCAP is governed by a 15 member board of directors, all of whom must be city employees or elected city officials.

In addition to assisting with regulatory issues, TCAP negotiates the purchase of wholesale electricity on behalf of its member political subdivisions. The collective (and significant) electricity consumption of the coalition leverages superior pricing compared to individual political subdivisions seeking market pricing on their own.

Action Requested from TCAP Members

The City of Benbrook’s (and TCAP’s) current five-year contract for electricity expires on December 31, 2017. The current contract is a fixed price for all consumption regardless of time of day. TCAP has identified an opportunity to lock in contract pricing for the period 2018-2022 that is as low as pricing has been since the beginning of electric deregulation in 2002. TCAP is preparing to go market on behalf of the coalition in the next 30-60 days and believes the coalition (and its members) will capture rates in the range of, and possibly below, 4 cents per kWh. The estimated annual savings to the City of Benbrook for the five year contract period is approximately \$100,000 per year.

If the City is interested in contracting for a five-year term (2018-2022) during 2016, the authorizing resolution must be passed by the City Council by February 25, 2016. TCAP members must immediately execute a contract once TCAP’s supplier is able to lock in a price at or below the benchmark prices for a five-year period commencing January 1, 2018. TCAP requests that the City designate three specific individuals with whom TCAP can correspond and provide a contract for signing when appropriate; only one of the three designees is required to sign the contract. Since the contract must be signed within twenty-four hours, TCAP recommends including Jay Doegey, TCAP’s Executive Director, as one the three designees.

Staff Report Provided by TCAP

A staff report prepared by TCAP is included as attachment one. This report provides detailed information about: TCAP, explanations of the “whereas clauses” included in the resolution, market benefits of TCAP, TCAP’s benefits regarding the price of electricity, history of pricing since 2002,

SUBMITTED BY:	DISPOSITION BY COUNCIL: <input type="checkbox"/> APPROVED <input type="checkbox"/> OTHER (DESCRIBE)	PROCESSED BY: CITY SECRETARY
CITY MANAGER		DATE:

DATE: 02/04/16	REFERENCE NUMBER: G-2230	SUBJECT: Adopt Resolution authorizing Texas Coalition for Affordable Power (TCAP) to procure electricity for 2018-2022	PAGE: 2 of 2
-------------------	--------------------------------	---	-----------------

contract requirements, resolution objectives, TCAP benefits to the consuming public, choice of supply options, and explanations of the “be it resolved” sections of the resolution.

Energy Supply Contract Options

The City has three options to consider among three separate supply options. Option 1 is a fixed price for all consumption regardless of time of day. Both Options 2 and 3 have variable components related to the energy spot market. The City’s current contract is most-similar to Option 1.

Under Option 1, the price will not exceed 4.1 cents per kWh in Benbrook’s ERCOT zone. The actual price is likely to be less than the benchmark prices. The prices will become effective January 1, 2018. These prices will be locked in 2016 and will not expire until December 31, 2022 and are reflective of the lowest prices for electricity experienced since the retail market was deregulated January 1, 2002. TCAP is generally recommending Option 1.

Participation in TCAP’s 2018-2022 Supply Contract

To participate in TCAP’s 2018-2022 Supply Contract, the City of Benbrook is required to adopt a resolution that includes:

- Choosing among three separate supply options and indicating the choice in the resolution;
- Designating three officials who can sign the supply deal at the appropriate time;
- Adopting the resolution by February 25, 2016; and,
- Providing the adopted resolution to TCAP by February 25, 2016.

RECOMMENDATION

Staff recommends that the City Council adopt the Resolution:

- Selecting Option 1 for the City of Benbrook’s supply option; and
- Designating Andy Wayman, David R. Gattis, and Jay Doegey as the three officials authorized to sign the supply contract on behalf of the City of Benbrook.

ATTACHMENT ONE

Model Staff Report to Support Resolution Authorizing TCAP to Procure Electricity for 2018-2022

This resolution is designed to support the second of several opportunities for TCAP members to contract for electricity for the post-2017 time period. If interested in contracting for a five-year term (2018-2022) during 2016, the authorizing resolution must be passed by the governing body of the interested TCAP member by February 25, 2016. The deadline will allow definition of the load to be served under each of three different electric supply options, which must be at least a minimum of 50 megawatts. Also, the deadline will give the wholesale provider ample opportunity to lock a fixed-price, equal to or less than a specific benchmark for each ERCOT zone, before June 30, 2016. When that supply scenario is locked, each member that passed the authorizing resolution must immediately sign a contract for that power. Please Note: The draft resolution is in Word and blanks must be filled in to identify the member, the preferred supply option and several individuals by name or position who will sign the contract when the appropriate price point is reached.

Explanation of Whereas Clauses:

What is TCAP?

As reflected in the fourth and seventh Whereas clauses, TCAP is a non-profit, political subdivision corporation, owned and controlled by its 171 political subdivision members, the vast majority of whom are cities. TCAP was formed in 2011 from the merger of Cities Aggregation Power Project (“CAPP”) and South Texas Aggregation Project (“STAP”), both of which were created in 2001, shortly before retail deregulation became effective on January 1, 2002. TCAP is governed by a 15 member board of directors, all of whom must be city employees or elected city officials. Typically, board members have been mayors, city managers, assistant city managers, finance directors or city attorneys.

Market Benefits of TCAP

An individual city, citizen or commercial customer can only purchase power directly from a Retail Electric Provider (“REP”) which under Texas law exists to give the impression of a competitive market. REPs cannot generate electricity, nor can they own wires. REPs are unnecessary middlemen between the wholesale and retail markets. As reflected in the second and fourth Whereas clauses, TCAP, as a political subdivision corporation, uniquely can go directly to the wholesale market. CAPP and STAP, prior to their merger into TCAP, separated contracts between a wholesale supplier and an independent REP, providing TCAP consultants with greater insight into the margins of various market participants than would be possible for most consumers. A broker or a REP would hand a form contract to an individual consumer. In the case of TCAP, no form contract is acceptable and, because of the size of TCAP’s load, both wholesale suppliers and REPs are willing to negotiate contract terms that are beneficial to TCAP members, enabling the refunds members have consistently received, special terms for adds and

deletes, including an ability to add new loads at current market prices even if the market price is lower than the price of the master agreement.

TCAP's benefits regarding pricing

TCAP's membership consumes approximately 1.4 billion kWh annually which amounts to approximately \$100 million in revenue for the wholesale provider at current contract prices. The value of the aggregated load is extremely appealing to wholesale market participants, enabling TCAP to get the market competitive pricing at any particular moment. As reflected in the third Whereas clause, in addition to the size of its load, TCAP derives benefit from geographic diversity. TCAP members reside in all four ERCOT zones and are spread between the entire length and breadth of Texas, from Wichita Falls to Harlingen and Fort Stockton to Palestine. Since consumption is influenced by weather and since weather conditions are seldom the same across all of Texas, it is unlikely that all TCAP members are reaching peak consumption simultaneously. If the peaks of all TCAP members were totaled, the sum would equal 313.1 MW. But a wholesale supplier looks at the peak consumption of TCAP as an aggregated load rather than the sum of the peaks of all members. TCAP's peak demand is 246.9 MW. That reduction in peak is a specific and unique benefit of aggregation. And unlike other aggregation groups that accept counties and school districts as members, TCAP has focused its membership on cities and other political subdivisions that have a relationship with cities to maintain the very favorable load factor of cities with high off peak consumption from street lights which provides favorable pricing terms.

History of CAPP, STAP, TCAP pricing

As reflected in the fifth and eighth Whereas clauses, aggregated cities have historically been interested in flat, fixed-price, full-requirements contracts and price stability. The resolution under consideration maintains that goal for a five-year period at a price much lower than the current contract price. In 2002, CAPP and STAP were able to obtain prices for energy at 4 cents per kWh. Very quickly after retail deregulation was implemented, natural gas prices started to rise, and they continued on an upward trend until late 2008. In late 2008, CAPP cities were paying approximately 13.5 cents per kWh. Fear that natural gas price volatility would continue to result in high electricity rates, CAPP cities were excited to lock-in long term rates beginning in 2009 that were significantly lower than prices experienced in the 2007-2008 time frame. STAP cities experienced their highest rate in 2006 at slightly more than 9 cents per kWh. STAP cities saw prices drop to around 7.8 cents per kWh in 2008 and were happy to find a contract that would stabilize prices in the 7 to 8 cent range for an extended period. When CAPP and STAP members signed new contracts in late 2008, no one could have predicted that the economy was about to enter a multi-year recession and that fracking would bring a glut of natural gas to a market with reduced demand, putting natural gas and electricity prices into a downward trend. Fortunately, gas prices have continued to drop and now TCAP members have an opportunity to again capture rates in the range of, and hopefully below, 4 cents per kWh.

Contract Requirements

As explained in the tenth Whereas clause, there is no legal requirement that a city engage in a competitive bidding process prior to contracting for electricity. The primary expectation of

contracting for wholesale energy in a deregulated energy market is that a purchaser sign a contract accepting a particular offered price within 24 hours of receipt of the offer. NYMEX gas futures prices change daily, and since gas prices drive electricity prices, it is unlikely that any given price quote for wholesale electricity during a given period will remain open for more than a day. As explained in the ninth Whereas clause, TCAP members are expected to immediately execute a contract once TCAP's supplier is able to lock in a price at or below the benchmark prices specified in the resolutions for a five-year period commencing January 1, 2018. That is why Section 2 of the resolution requires the naming of specific individuals with whom TCAP can correspond and provide a contract for signing when appropriate.

Resolution's Objective

As explained in the eleventh thru fourteenth Whereas clauses, after the size of the load for the 2015 contract opportunity is defined by February 25, 2016, TCAP's supplier will look for an opportunity to lock prices for the five-year term at or below specified benchmarks (4.1 – 4.25 cents per kWh). That may happen by the second week of March, but if it appears that prices are trending downward, TCAP will direct its designated supplier, NextEra, to daily monitor the market to hopefully capture a price under lower than benchmarked prices. The window of opportunity for capturing a reasonable price at or below the benchmarks will expire by June 30, 2016. TCAP will develop another supply opportunity in the Fall of 2016 for any members not contracting in this offering.

TCAP benefits to the consuming public

Whereas clause six references TCAP becoming a forceful voice for consumer protections and market reform to benefit the public as well as political subdivisions. When CAPP and STAP merged in 2011, one of the guiding principles established in meetings with members and through subsequent board priority-setting meetings was that TCAP should advocate for reforms in the market that would enhance competition and benefit the general public. TCAP has become the closest thing to a consumer advocate that exists in the deregulated marketplace on both the wholesale and retail sides of the business. TCAP membership not only provides political subdivisions with resources to monitor markets, capture reasonable prices and best available terms, stabilize budgets, address problems with invoices and help with governmental reports, provide best of class portals to understand consumption patterns, membership also affords an opportunity to represent to constituents that they have an advocate on their behalf.

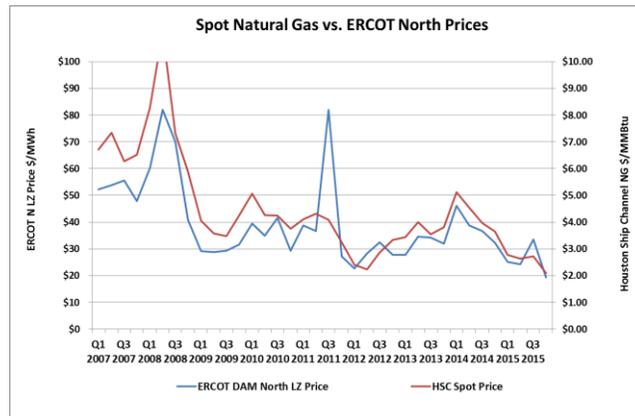

CHOICE OF SUPPLY OPTION

Whereas Clause 13 identifies three different supply options that TCAP has arranged as choices for each member. Option 1 is a fixed price for all consumption regardless of time of day. The price will not exceed 4.1 cents per kWh in the North and West ERCOT zones. It will not exceed 4.25 cents per kWh in the Houston and South zones. The actual price is likely to be less than the benchmark prices. The prices will become effective January 1, 2018. Given that these prices are to be locked in 2016 and will not expire until December 31, 2022, they are reflective of the lowest prices for electricity experienced since the retail market was deregulated January 1, 2002. Generally speaking, there ought to be an expectation that the price of energy will climb marginally for each year of the contract term beyond two years. The possibility of locking-in

energy prices at or below 4 cents per kWh for a period that terminates in seven years is truly remarkable based upon the history of deregulation.

In the Spring of 2015, TCAP consultants received indicative fixed-prices around 4.5 cents per kWh. They then developed two supply options to the fixed price full requirements contract that offered attractive savings opportunities. Both Options 2 and 3 have variable components related to the energy spot market. While the average spot price in the past three years has been \$32.14/Mwh (2013), \$38.50/Mwh (2014), \$25.53/Mwh (2015), respectively, it is important to note that spot market prices can change every 15 minutes, therefore it is impossible to provide members a precise price for Options 2 and 3. While they provide an opportunity for savings off of the benchmarked prices for Option 1, savings cannot be guaranteed, and thus Option 2 and 3 involve risk to that does not exist with Option 1. A TCAP member that is completely risk adverse should select Option 1.

Option 2 fixes a price for the peak usage period and then turns to the spot market for all off-peak usage. When TCAP was developing these products in 2014, there was a large enough gap between fixed price options and spot prices that this option looked very attractive. Now, with market prices at historic recent term lows, both spot prices and fixed prices have fallen and their price differential has shrunk to the point that future savings from the spot market may not be as great as the risk of future price increases. The following graph shows how low current spot market prices have gone.

Option 2 was developed with the anticipation that spot prices during the off peak period would be in the range of \$10/MWh to \$40/MWh (\$0.01-\$0.04/kWh) over time for spot purchases. Our latest quotes for fully fixed priced products (Option 1) includes off peak pricing fixed at under \$20/MWh. These low Option 1 fixed prices for off peak usage may make it harder for future off peak spot prices to create additional savings under Option 2 over time even though the customer will be incurring market price risk.

Option 3 begins with the purchase of a block of power to cover the base use of all members who commit to this option. Block power, since it is a firm commitment 24 hours a day, is the cheapest form of energy available in the wholesale market. Daytime peak consumption will be partly covered by a fixed price for solar power with all other consumption supplied by the spot market.

In considering Option 2, TCAP consultants would tell you that with current prices about a half cent less than the price that existed when Option 2 was conceptualized last Spring, it will be difficult for Option 2 to generate savings sufficient to justify its selection. Option 3 with its majority reliance on the cheapest form of energy has a greater probability than Option 2 of producing savings over Option 1. But again, with such low Option 1 fixed priced products now available to TCAP members, and since there are no guarantees that Options 2 or 3, which utilize spot market pricing, will remain as attractive as they were even a few months ago.

EXPLANATION OF “BE IT RESOLVED” SECTIONS

- Section 1.** Authorizes TCAP to submit the members load, along with the load of other authorizing members, to be aggregated into a pool by TCAP’s wholesale supplier for a contract commencing January 1, 2018 and terminating December 31, 2022 with the understanding that the fixed, full-requirements price under Option 1 must not exceed 4.1 cents per kWh in the North and West zones and must not exceed 4.25 cents in the Houston and South zones.
- Section 2.** Sets conditions precedent that the aggregated load exceed 50 MW, that the resolution be passed before February 25, 2016, and that NextEra has until June 3, 2016 to lock in a fixed price for the aggregated load that does not exceed benchmark prices. It also requires the designation of a specific individual, by name or title, who are authorized to sign a contract within 24 hours of submittal, assuming the conditions have been met.
- Section 3.** Consistent with the last two Whereas clauses, this section commits the member to budget for and approve funds necessary to pay for the member’s proportionate share of the aggregated load that TCAP commits to with NextEra. TCAP will contract with NextEra based upon representations of authorizing members, each of whom will be provided with a Commercial Electric Service Agreement (“CESA”) with GEXA, the current REP, that extends current retail service terms with the lower wholesale price arranged with NextEra for the 2018-2020 time period.
- Section 4.** In order for TCAP to be informed of the passage of the resolution so that the member’s load can be aggregated by NextEra, this section specifies that a copy of the resolution should be sent to TCAP’s Executive Director and General Counsel.

RESOLUTION NO. 2016-02

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF BENBROOK, TEXAS, AUTHORIZING THE TEXAS COALITION FOR AFFORDABLE POWER, INC. (TCAP) TO NEGOTIATE AN ELECTRIC SUPPLY AGREEMENT FOR FIVE YEARS FOR DELIVERIES OF ELECTRICITY EFFECTIVE JANUARY 1, 2018; AUTHORIZING TCAP TO ACT AS AN AGENT ON BEHALF OF THE CITY TO ENTER INTO A CONTRACT FOR ELECTRICITY; AUTHORIZING ANDY WAYMAN OR DAVID R. GATTIS OR JAY DOEGEY TO EXECUTE AN ELECTRIC SUPPLY AGREEMENT FOR DELIVERIES OF ELECTRICITY EFFECTIVE JANUARY 1, 2018 AND COMMITTING TO BUDGET FOR ENERGY PURCHASES IN 2018 THROUGH 2022 AND TO HONOR THE CITY'S COMMITMENTS TO PURCHASE POWER FOR ITS ELECTRICAL NEEDS IN 2018 THROUGH 2022 THROUGH TCAP

WHEREAS, the City of Benbrook, Texas (City) is a member of Texas Coalition For Affordable Power, Inc. (TCAP), a non-profit, political subdivision corporation dedicated to securing electric power for its more than 170 members in the competitive retail market; and

WHEREAS, TCAP has unique rights under Texas law to negotiate directly in the wholesale market and arrange separate contracts for power supply and retail services which provides TCAP leverage to achieve contract provisions that single city negotiations with a Retail Electric Provider (REP) would be unlikely to produce; and

WHEREAS, TCAP's geographic diversity across all four ERCOT zones produces an aggregated peak load that is lower than the total of individual peak loads of the individual TCAP members, allowing price benefits in the wholesale market that are not likely to be available to any given TCAP member alone; and

WHEREAS, TCAP and its predecessor organizations, Cities Aggregation Power Project, Inc. (CAPP) and South Texas Aggregation Project, Inc. (STAP), negotiated favorable contract terms that resulted in rebates from the wholesale supplier and reasonable commodity prices for delivered electricity since 2002 resulting in stable budgets for electricity for members; and

WHEREAS, commodity prices for electricity experienced significant volatility between 2002 and 2009, with prices ranging from 4 cents to over 13 cents per kWh, causing CAPP and STAP members to welcome a five year contractual commitment that came close to cutting the 2008 prices in half, with that contract being extended until December 31, 2017, with a negotiated price reduction of about 1 cent per kWh; and

WHEREAS, TCAP has become a forceful voice for consumer protections and market reform to benefit the public and well as cities and other political subdivisions; and

WHEREAS, TCAP is owned by its members and distributes monetary and other resources according to relative load size of members and is controlled by a 15 member Board of Directors, all of whom must be city employees of members who represent diversity in size and geography; and

WHEREAS, wholesale power prices within the deregulated Texas market are largely determined by the NYMEX gas futures prices for natural gas which are currently low and relatively stable, but which change daily; and

WHEREAS, daily price changes require retail customers to execute a contract immediately upon receipt of a favorable offer; and

WHEREAS, pursuant to Texas Local Government Code Section 252.022(a)(15) expenditures for electricity are exempt from competitive bidding requirements; and

WHEREAS, on any given day, TCAP is able to capture a favorable wholesale price for any period of time, comparable to or better than any given REP or broker; and

WHEREAS, TCAP intends to continue to contract with its current wholesale supplier, NextEra, because the relationship with NextEra is such that NextEra is willing, after it knows the size of a given load, to execute a contract at or below prescribed price and terms; and

WHEREAS, the City desires to execute a contract for electricity for the period beyond the expiration of its current contract on December 31, 2017, that locks-in favorable wholesale prices under one of three different supply options:

- Option 1 fixed-price, full-requirements at a price not to exceed 4.1 cents per kWh for the North and West zones or 4.25 cents per kWh for the South and Houston zones;
- Option 2 fixed price for on-peak hours and variable spot market prices for off-peak hours;
- Option 3 block energy at a fixed price to cover the base load hours, a fixed price for solar energy to cover mid-day peak hours (approximately 10% of total load) and variable spot market prices for all remaining consumption; and

WHEREAS, TCAP will allow members six weeks from receipt of this resolution to consider whether to participate in this second opportunity to contract for post-2017 electrical supply, and thereafter allow NextEra until June 30, 2016 to contact for power for five years at a price not to exceed 4.1 cents per kWh in the North and West zones and a price not to exceed 4.25 cents per kWh in the South and Houston zones for

Option 1 , so long as the aggregated load for any of the three supply options reaches at least 50 megawatts; and

WHEREAS, wholesale suppliers demand assurance that TCAP will pay for all contracted load; and

WHEREAS, the City needs to assure TCAP that it will sign a Commercial Electric Supply Agreement (CESA) reflecting the contract extension and budget for energy purchases for the post-2017 period and honor its commitment to purchase power for its electrical needs for 2018 through 2022 through TCAP,

**THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF
BENBROOK, TEXAS:**

Section 1

That the TCAP Board of Directors and its consultants and advisors are agents authorized to negotiate for the City's electricity needs as a member of TCAP for the period 2018 through 2022 at a price not to exceed 4.1 cents per kWh for the North and West zones and a price not to exceed 4.25 cents per kWh in the Houston and South zones for supply Option 1;

Section 2

The City prefers to participate in supply Option 1 with the following understanding: a) while supply Option 1 is a full-requirements, fixed-price option, Options 2 (fixed price on-peak, variable spot prices for off-peak usage) and 3 (fixed price for base load, fixed price for a portion of peak load, and variable spot market for remainder) have variable price components and savings over Option 1 cannot be guaranteed, and b) if there is insufficient desire among members to achieve a 50 MW threshold for either Option 2 or 3, the member selecting the inadequately subscribed option will be placed in the Option 1 category. If no option is selected, TCAP will assume that a passed Resolution approves of Option 1.

Section 3

Assuming this resolution is passed before February 25, 2016 and the combined load of TCAP members passing this resolution exceeds 50 megawatts for the preferred Option and NextEra is able to provide TCAP an opportunity prior to June 30, 2016 to contract for power to be delivered to members at a price not to exceed 4.1 cents per kWh for the North and West zones and not to exceed 4.25 cents per kWh in the Houston and South zones for supply Option 1 for the period January 1, 2018 through December 31, 2022, any one of the following individuals is hereby authorized to sign an electric supply agreement for the City within 24 hours of receipt of a contract that has been approved and recommended by the TCAP Board of Directors: Andy Wayman, or David R. Gattis or Jay Doegey.

Section 4

That the City will commit to purchase power to meet all of its electricity needs eligible for competition pursuant to the TCAP approved supply agreement and approve funds necessary to pay electricity costs proportionate to the City's load under the supply agreement (whether wholesale or retail) arranged by TCAP and signed by TCAP's Executive Director or President or other TCAP representatives authorized by the TCAP Board.

Section 5

That a copy of this resolution shall be sent to Jay Doegey, Executive Director, TCAP, 15455 Dallas Parkway, Suite 600, Addison, Texas 75001 and Geoffrey M. Gay, legal counsel to TCAP at 816 Congress Avenue, Suite 1900, Austin, Texas 78701.

PRESENTED AND PASSED on this the 4th day of February, 2016, by a vote of ayes and nays at a regular meeting of the City Council of Benbrook, Texas.

Jerry B. Dittrich, Mayor

ATTEST:

Joanna King, City Secretary
